NOTICES

GOVERNMENT MOTIONS

3. *Debated May 17, 18, 23, 24, 25; July 13, November 9 and 29, 1989.*
24. *Mr Ward*—Motion pursuant to Standing Order 6 (b)—That, notwithstanding Standing Order 9, the House shall continue to meet from 8.00 p.m. to 12.00 midnight on December 13, 18, 19 and 20, 1989, at which time the Speaker shall adjourn the House without motion until the next Sessional day. *December 11, 1989.*

PRIVATE MEMBERS' MOTIONS

1. *Ms Bryden*—Resolution—That in the opinion of this House, recognizing that huge rent increases year after year are constituting a threat to the competitiveness and survival of retail business in commercial strips serving residential neighbourhoods, the Government of Ontario should introduce legislation as soon as possible to regulate the rents for such business establishments in order to provide those businesses with protection from gouging landlords comparable to the protection given to tenants of residential rental premises under the Residential Rent Regulation Act, 1986. *April 27, 1989.*
2. *Ms Bryden*—Resolution—That, in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a charter of rights for part-time workers should be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment. *April 27, 1989.*
8. *Mr Brandt*—Motion of Censure—That this House has lost confidence in the Minister of the Environment's capacity to exercise his responsibilities as a Minister of the Crown, specifically his duty under the *Environmental Protection Act* to insure the public's safety from toxic chemicals, as well as his duty under the *Freedom of Information and Protection of Privacy Act, 1987* to disclose information regarding a grave environmental, health or safety hazard to the public.

Therefore, this House:

- 1) urges the Minister of the Environment to resign; and
- 2) calls on the Premier of Ontario to appoint a public enquiry into his government's failure to insure that the public was fully informed with regard to the importation, sale, and use of toxic fuel and the govern-

ment's mismanagement of this issue resulting in potential health and safety risks to the citizens of Ontario. *May 15, 1989.*

10. *Mr Harris—Resolution—That, in the opinion of this House, recognizing that non-refundable tax credits for political contributions effectively disenfranchise those without taxable incomes from this aspect of the political process; and, acknowledging the unfair treatment the current system affords lower-income Ontarians—many of whom are women, seniors, disabled, ethnic minorities, farmers and Native Canadians; legislation should be amended to provide for refundable tax credits to eliminate existing discrimination on the basis of income in the financing of Ontario political Parties and candidates. May 17, 1989.*
23. *Mr Eves—Resolution—That, in the opinion of this House, recognizing the shortage of acute care beds which is in part due to the use of these beds by chronic care patients and recognizing the added cost to the system as a result of this misuse of acute care beds and recognizing the higher quality of life afforded to patients who can stay in their own homes and the added efficiency in the system as a result of home care; the government of Ontario should establish and maintain a system of community palliative care services which would allow people to be cared for in their own homes or in hospices where the atmosphere allows basic human dignity to be the top priority. July 25, 1989.*
24. *Mr Eves—Resolution—That, in the opinion of this House, recognizing that Naturopathists have a body of knowledge on which the practice of naturopathy is based and recognizing the risk associated with an unlicensed person practicing naturopathy; the government of Ontario, recognizing the best interests of the public, should continue to legislate the regulation of Naturopathy. July 25, 1989.*
28. *Mr Cousens—Resolution—That in the opinion of this House, recognizing that all sittings of the District and Provincial Courts within the Judicial District of York Region take place in Newmarket; and that considerable time, expense and inconvenience is incurred by residents of the Town of Markham and South York Region since numerous matters are heard in Provincial Offences Court on an ongoing basis; the Attorney General should take immediate steps to have a regular sitting of the Provincial Offences Court and the Provincial Court (Criminal Division) at a location in the Town of Markham. October 16, 1989.*
33. *Debated December 7, 1989.*
34. *Debated December 7, 1989.*
35. *Mr Runciman—Resolution—That, in the opinion of this House, a Canadian-style Triple "E" Federal Senate (elected, regionally equal and effective) should be created and in the event that such a Senate is not implemented by Constitutional Agreement, the Government of Ontario should hold elections, in conjunction with the 1991 Municipal Elections, to choose people to fill present and future Ontario vacancies in the Senate. November 27, 1989.*

36. *Mr Pollock*—Resolution—That, in the opinion of this House, the Ministry of Health should pay for prosthetic hair replacements for persons under 18, or those enrolled as full time students in any school, college or University that have hair loss due to accidents, conditions such as Alopecia Areata, and treatments such as chemotherapy. *November 29, 1989.*

NOTICES

GOVERNMENT MOTIONS

3. *Debated May 17, 18, 23, 24, 25; July 13, November 9 and 29, 1989.*
24. *Debated December 11, 1989.*

PRIVATE MEMBERS' MOTIONS

1. *Ms Bryden—Resolution—That in the opinion of this House, recognizing that huge rent increases year after year are constituting a threat to the competitiveness and survival of retail business in commercial strips serving residential neighbourhoods, the Government of Ontario should introduce legislation as soon as possible to regulate the rents for such business establishments in order to provide those businesses with protection from gouging landlords comparable to the protection given to tenants of residential rental premises under the Residential Rent Regulation Act, 1986. April 27, 1989.*
2. *Ms Bryden—Resolution—That, in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a charter of rights for part-time workers should be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment. April 27, 1989.*
8. *Mr Brandt—Motion of Censure—That this House has lost confidence in the Minister of the Environment's capacity to exercise his responsibilities as a Minister of the Crown, specifically his duty under the *Environmental Protection Act* to insure the public's safety from toxic chemicals, as well as his duty under the *Freedom of Information and Protection of Privacy Act, 1987* to disclose information regarding a grave environmental, health or safety hazard to the public.*

Therefore, this House:

- 1) urges the Minister of the Environment to resign; and
 - 2) calls on the Premier of Ontario to appoint a public enquiry into his government's failure to insure that the public was fully informed with regard to the importation, sale, and use of toxic fuel and the government's mismanagement of this issue resulting in potential health and safety risks to the citizens of Ontario. *May 15, 1989.*
10. *Mr Harris—Resolution—That, in the opinion of this House, recognizing that non-refundable tax credits for political contributions effectively disenfranch-*

chise those without taxable incomes from this aspect of the political process; and, acknowledging the unfair treatment the current system affords lower-income Ontarians—many of whom are women, seniors, disabled, ethnic minorities, farmers and Native Canadians; legislation should be amended to provide for refundable tax credits to eliminate existing discrimination on the basis of income in the financing of Ontario political Parties and candidates. *May 17, 1989.*

23. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing the shortage of acute care beds which is in part due to the use of these beds by chronic care patients and recognizing the added cost to the system as a result of this misuse of acute care beds and recognizing the higher quality of life afforded to patients who can stay in their own homes and the added efficiency in the system as a result of home care; the government of Ontario should establish and maintain a system of community palliative care services which would allow people to be cared for in their own homes or in hospices where the atmosphere allows basic human dignity to be the top priority. *July 25, 1989.*
 24. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing that Naturopathists have a body of knowledge on which the practice of naturopathy is based and recognizing the risk associated with an unlicensed person practicing naturopathy; the government of Ontario, recognizing the best interests of the public, should continue to legislate the regulation of Naturopathy. *July 25, 1989.*
 28. *Mr Cousens*—Resolution—That in the opinion of this House, recognizing that all sittings of the District and Provincial Courts within the Judicial District of York Region take place in Newmarket; and that considerable time, expense and inconvenience is incurred by residents of the Town of Markham and South York Region since numerous matters are heard in Provincial Offences Court on an ongoing basis; the Attorney General should take immediate steps to have a regular sitting of the Provincial Offences Court and the Provincial Court (Criminal Division) at a location in the Town of Markham. *October 16, 1989.*
 35. *Mr Runciman*—Resolution—That, in the opinion of this House, a Canadian-style Triple "E" Federal Senate (elected, regionally equal and effective) should be created and in the event that such a Senate is not implemented by Constitutional Agreement, the Government of Ontario should hold elections, in conjunction with the 1991 Municipal Elections, to choose people to fill present and future Ontario vacancies in the Senate. *November 27, 1989.*
 36. *Mr Pollock*—Resolution—That, in the opinion of this House, the Ministry of Health should pay for prosthetic hair replacements for persons under 18, or those enrolled as full time students in any school, college or University that have hair loss due to accidents, conditions such as Alopecia Areata, and treatments such as chemotherapy. *November 29, 1989.*

GOVERNMENT MOTION

3. *Debated May 17, 18, 23, 24, 25; July 13, November 9 and 29, 1989.*

PRIVATE MEMBERS' MOTIONS

1. *Ms Bryden*—Resolution—That in the opinion of this House, recognizing that huge rent increases year after year are constituting a threat to the competitiveness and survival of retail business in commercial strips serving residential neighbourhoods, the Government of Ontario should introduce legislation as soon as possible to regulate the rents for such business establishments in order to provide those businesses with protection from gouging landlords comparable to the protection given to tenants of residential rental premises under the Residential Rent Regulation Act, 1986. *April 27, 1989.*
2. *Ms Bryden*—Resolution—That, in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a charter of rights for part-time workers should be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment. *April 27, 1989.*
8. *Mr Brandt*—Motion of Censure—That this House has lost confidence in the Minister of the Environment's capacity to exercise his responsibilities as a Minister of the Crown, specifically his duty under the *Environmental Protection Act* to insure the public's safety from toxic chemicals, as well as his duty under the *Freedom of Information and Protection of Privacy Act, 1987* to disclose information regarding a grave environmental, health or safety hazard to the public.

Therefore, this House:

- 1) urges the Minister of the Environment to resign; and
 - 2) calls on the Premier of Ontario to appoint a public enquiry into his government's failure to insure that the public was fully informed with regard to the importation, sale, and use of toxic fuel and the government's mismanagement of this issue resulting in potential health and safety risks to the citizens of Ontario. *May 15, 1989.*
10. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that non-refundable tax credits for political contributions effectively disenfranchise those without taxable incomes from this aspect of the political process; and, acknowledging the unfair treatment the current system affords

lower-income Ontarians—many of whom are women, seniors, disabled, ethnic minorities, farmers and Native Canadians; legislation should be amended to provide for refundable tax credits to eliminate existing discrimination on the basis of income in the financing of Ontario political Parties and candidates. *May 17, 1989.*

23. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing the shortage of acute care beds which is in part due to the use of these beds by chronic care patients and recognizing the added cost to the system as a result of this misuse of acute care beds and recognizing the higher quality of life afforded to patients who can stay in their own homes and the added efficiency in the system as a result of home care; the government of Ontario should establish and maintain a system of community palliative care services which would allow people to be cared for in their own homes or in hospices where the atmosphere allows basic human dignity to be the top priority. *July 25, 1989.*
 24. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing that Naturopathists have a body of knowledge on which the practice of naturopathy is based and recognizing the risk associated with an unlicensed person practicing naturopathy; the government of Ontario, recognizing the best interests of the public, should continue to legislate the regulation of Naturopathy. *July 25, 1989.*
 28. *Mr Cousens*—Resolution—That in the opinion of this House, recognizing that all sittings of the District and Provincial Courts within the Judicial District of York Region take place in Newmarket; and that considerable time, expense and inconvenience is incurred by residents of the Town of Markham and South York Region since numerous matters are heard in Provincial Offences Court on an ongoing basis; the Attorney General should take immediate steps to have a regular sitting of the Provincial Offences Court and the Provincial Court (Criminal Division) at a location in the Town of Markham. *October 16, 1989.*
 35. *Mr Runciman*—Resolution—That, in the opinion of this House, a Canadian-style Triple “E” Federal Senate (elected, regionally equal and effective) should be created and in the event that such a Senate is not implemented by Constitutional Agreement, the Government of Ontario should hold elections, in conjunction with the 1991 Municipal Elections, to choose people to fill present and future Ontario vacancies in the Senate. *November 27, 1989.*
 36. *Mr Pollock*—Resolution—That, in the opinion of this House, the Ministry of Health should pay for prosthetic hair replacements for persons under 18, or those enrolled as full time students in any school, college or University that have hair loss due to accidents, conditions such as Alopecia Areata, and treatments such as chemotherapy. *November 29, 1989.*

PRIVATE MEMBERS' MOTIONS

1. *Ms Bryden—Resolution—That in the opinion of this House, recognizing that huge rent increases year after year are constituting a threat to the competitiveness and survival of retail business in commercial strips serving residential neighbourhoods, the Government of Ontario should introduce legislation as soon as possible to regulate the rents for such business establishments in order to provide those businesses with protection from gouging landlords comparable to the protection given to tenants of residential rental premises under the Residential Rent Regulation Act, 1986. April 27, 1989.*
2. *Ms Bryden—Resolution—That, in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a charter of rights for part-time workers should be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment. April 27, 1989.*
8. *Mr Brandt—Motion of Censure—That this House has lost confidence in the Minister of the Environment's capacity to exercise his responsibilities as a Minister of the Crown, specifically his duty under the *Environmental Protection Act* to insure the public's safety from toxic chemicals, as well as his duty under the *Freedom of Information and Protection of Privacy Act, 1987* to disclose information regarding a grave environmental, health or safety hazard to the public.*

Therefore, this House:
 - 1) urges the Minister of the Environment to resign; and
 - 2) calls on the Premier of Ontario to appoint a public enquiry into his government's failure to insure that the public was fully informed with regard to the importation, sale, and use of toxic fuel and the government's mismanagement of this issue resulting in potential health and safety risks to the citizens of Ontario. May 15, 1989.
10. *Mr Harris—Resolution—That, in the opinion of this House, recognizing that non-refundable tax credits for political contributions effectively disenfranchise those without taxable incomes from this aspect of the political process; and, acknowledging the unfair treatment the current system affords*

lower-income Ontarians—many of whom are women, seniors, disabled, ethnic minorities, farmers and Native Canadians; legislation should be amended to provide for refundable tax credits to eliminate existing discrimination on the basis of income in the financing of Ontario political Parties and candidates. *May 17, 1989.*

23. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing the shortage of acute care beds which is in part due to the use of these beds by chronic care patients and recognizing the added cost to the system as a result of this misuse of acute care beds and recognizing the higher quality of life afforded to patients who can stay in their own homes and the added efficiency in the system as a result of home care; the government of Ontario should establish and maintain a system of community palliative care services which would allow people to be cared for in their own homes or in hospices where the atmosphere allows basic human dignity to be the top priority. *July 25, 1989.*
 24. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing that Naturopathists have a body of knowledge on which the practice of naturopathy is based and recognizing the risk associated with an unlicensed person practicing naturopathy; the government of Ontario, recognizing the best interests of the public, should continue to legislate the regulation of Naturopathy. *July 25, 1989.*
 28. *Mr Cousens*—Resolution—That in the opinion of this House, recognizing that all sittings of the District and Provincial Courts within the Judicial District of York Region take place in Newmarket; and that considerable time, expense and inconvenience is incurred by residents of the Town of Markham and South York Region since numerous matters are heard in Provincial Offences Court on an ongoing basis; the Attorney General should take immediate steps to have a regular sitting of the Provincial Offences Court and the Provincial Court (Criminal Division) at a location in the Town of Markham. *October 16, 1989.*
 35. *Mr Runciman*—Resolution—That, in the opinion of this House, a Canadian-style Triple “E” Federal Senate (elected, regionally equal and effective) should be created and in the event that such a Senate is not implemented by Constitutional Agreement, the Government of Ontario should hold elections, in conjunction with the 1991 Municipal Elections, to choose people to fill present and future Ontario vacancies in the Senate. *November 27, 1989.*
 36. *Mr Pollock*—Resolution—That, in the opinion of this House, the Ministry of Health should pay for prosthetic hair replacements for persons under 18, or those enrolled as full time students in any school, college or University that have hair loss due to accidents, conditions such as Alopecia Areata, and treatments such as chemotherapy. *November 29, 1989.*

NOTICES

GOVERNMENT MOTION

3. *Debated May 17, 18, 23, 24, 25; July 13, November 9 and 29, 1989.*
-

PRIVATE MEMBERS' MOTIONS

1. *Ms Bryden—Resolution—That in the opinion of this House, recognizing that huge rent increases year after year are constituting a threat to the competitiveness and survival of retail business in commercial strips serving residential neighbourhoods, the Government of Ontario should introduce legislation as soon as possible to regulate the rents for such business establishments in order to provide those businesses with protection from gouging landlords comparable to the protection given to tenants of residential rental premises under the Residential Rent Regulation Act, 1986. April 27, 1989.*
2. *Ms Bryden—Resolution—That, in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a charter of rights for part-time workers should be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment. April 27, 1989.*
8. *Mr Brandt—Motion of Censure—That this House has lost confidence in the Minister of the Environment's capacity to exercise his responsibilities as a Minister of the Crown, specifically his duty under the *Environmental Protection Act* to insure the public's safety from toxic chemicals, as well as his duty under the *Freedom of Information and Protection of Privacy Act, 1987* to disclose information regarding a grave environmental, health or safety hazard to the public.*

Therefore, this House:

- 1) urges the Minister of the Environment to resign; and
 - 2) calls on the Premier of Ontario to appoint a public enquiry into his government's failure to insure that the public was fully informed with regard to the importation, sale, and use of toxic fuel and the government's mismanagement of this issue resulting in potential health and safety risks to the citizens of Ontario. *May 15, 1989.*
10. *Mr Harris—Resolution—That, in the opinion of this House, recognizing that non-refundable tax credits for political contributions effectively disenfranchise those without taxable incomes from this aspect of the political process; and, acknowledging the unfair treatment the current system affords*

lower-income Ontarians—many of whom are women, seniors, disabled, ethnic minorities, farmers and Native Canadians; legislation should be amended to provide for refundable tax credits to eliminate existing discrimination on the basis of income in the financing of Ontario political Parties and candidates. *May 17, 1989.*

23. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing the shortage of acute care beds which is in part due to the use of these beds by chronic care patients and recognizing the added cost to the system as a result of this misuse of acute care beds and recognizing the higher quality of life afforded to patients who can stay in their own homes and the added efficiency in the system as a result of home care; the government of Ontario should establish and maintain a system of community palliative care services which would allow people to be cared for in their own homes or in hospices where the atmosphere allows basic human dignity to be the top priority. *July 25, 1989.*
 24. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing that Naturopathists have a body of knowledge on which the practice of naturopathy is based and recognizing the risk associated with an unlicensed person practicing naturopathy; the government of Ontario, recognizing the best interests of the public, should continue to legislate the regulation of Naturopathy. *July 25, 1989.*
 28. *Mr Cousens*—Resolution—That in the opinion of this House, recognizing that all sittings of the District and Provincial Courts within the Judicial District of York Region take place in Newmarket; and that considerable time, expense and inconvenience is incurred by residents of the Town of Markham and South York Region since numerous matters are heard in Provincial Offences Court on an ongoing basis; the Attorney General should take immediate steps to have a regular sitting of the Provincial Offences Court and the Provincial Court (Criminal Division) at a location in the Town of Markham. *October 16, 1989.*
 35. *Mr Runciman*—Resolution—That, in the opinion of this House, a Canadian-style Triple “E” Federal Senate (elected, regionally equal and effective) should be created and in the event that such a Senate is not implemented by Constitutional Agreement, the Government of Ontario should hold elections, in conjunction with the 1991 Municipal Elections, to choose people to fill present and future Ontario vacancies in the Senate. *November 27, 1989.*

NOTICES

GOVERNMENT MOTIONS

3. *Debated May 17, 18, 23, 24, 25; July 13, November 9 and 29, 1989.*
25. *Mr Ward*—Resolution—That the following committees be authorized to meet during the Winter Adjournment in accordance with the schedule of meeting dates agreed to by the three Party Whips and tabled with the Clerk of the Assembly to examine and enquire into the following matters:—

Select Committee on Constitutional and Intergovernmental Affairs be appointed, in anticipation of a First Ministers' Conference on Senate Reform tentatively scheduled for November 1, 1990, to undertake a programme of consultation on Senate Reform; that the Committee have authority to meet concurrently with the House and during any adjournment of the House; that the Committee be authorized to travel from place to place in Canada; that, subject to the proclamation on or by June 23, 1990 of the *Constitution Amendment, 1987*, signed at Ottawa on June 3, 1987, the Committee complete its programme of consultation and present its report to the House by October 15, 1990; and that the Committee be composed of the following members: Mr Furlong (Chair), Mr Allen, Mr Breaugh, Mr Eves, Mr Grandmaitre, Mr Harris, Ms Hošek, Mr McGuinty, Ms Oddie Munro, Mr Polsinelli, Miss Roberts;

Select Committee on Education to consider life-long learning;

Select Committee on Energy be appointed, in view of the increasing evidence of the contribution of combustion of fossil fuels to global warming, amongst other contributors, substantial understanding of the implications of climatic change on the environment and economy of Ontario and on human activity, and widespread public concern regarding these issues, and in view of the fact that energy policy has a direct bearing on these issues because of its impact on the mix, level and efficiency of use of all types of primary energy resources, to identify the extent to which current provincial energy policy affects carbon dioxide emissions, the potential for controlling, stabilizing or reducing carbon dioxide emissions, and the types of public policy or programme initiatives to achieve the objectives of limiting the adverse environmental and economic impacts of carbon dioxide emissions, and to consider (i) all energy sources, including oil, natural gas, coal, electricity and alternative energy sources, with an emphasis on energy produced by the combustion of fossil fuels to provide heat or motive power; (ii) in the case of electricity and alternate energy sources, both the direct use of fossil fuels and the economic potential for non-combustion energy sources; (iii) demand management initiatives, including energy efficiency, with respect to their roles as non-carbon dioxide-forming sources of energy; and (iv) all sectors of energy applications, including the industrial, commercial, residential, institutional and transportation sectors; that the Committee have authority to meet concurrently with the House and during any adjournment of the House; that the Committee be authorized to travel from place to place in Canada; that the Committee present an interim report on March 19, 1990 and that a final report be presented to the House

in the Autumn of 1990; and that the Committee be composed of the following members: Mrs Sullivan (Chair), Mr Brown, Mr Callahan, Mr Charlton, Mr Cooke (Kitchener), Mr Cureatz, Mrs Grier, Mr Kerrio, Mr McGuigan, Mr Pollock, Mr Ray (Windsor-Walkerville);

Special Committee on the Parliamentary Precinct to meet from time to time at the call of the Co-Chairs of the Committee to consider matters related to the restoration of the Parliament Building;

Standing Committee on Administration of Justice to consider alternative dispute resolution;

Standing Committee on Finance and Economic Affairs to consider matters relating to pre-Budget consultation;

Standing Committee on General Government to conduct public hearings on and clause-by-clause consideration of Bill 68, An Act to amend certain Acts respecting Insurance for a maximum of 5 weeks; that the Committee be authorized to adjourn to places in Ontario for not more than 6 days; that the Bill be reported to the House on March 19, 1990; and that in the event that the Committee fails to report the said Bill on the date specified, the Bill shall be deemed to be passed by the Committee and shall be deemed to be reported to the House and the report shall be deemed to be received and adopted by the House;

Standing Committee on Government Agencies to consider the operation of certain agencies, boards and commissions of the Government of Ontario;

Standing Committee on the Legislative Assembly to consider matters relating to the procedures and administration of the House and to freedom of information and protection of individual privacy;

Standing Committee on the Ombudsman to consider the denied case of Farm "Q" Ltd.;

Standing Committee on Public Accounts to consider the Annual Report of the Provincial Auditor;

Standing Committee on Resources Development to conduct public hearings on and clause-by-clause consideration of Bill 208, An Act to amend the Occupational Health and Safety Act and the Worker's Compensation Act for a maximum of 6 weeks; that the Bill be reported to the House on March 19, 1990; and that in the event that the Committee fails to report the said Bill on the date specified, the Bill shall be deemed to be passed by the Committee and shall be deemed to be reported to the House and the report shall be deemed to be received and adopted by the House;

Standing Committee on Social Development to consider the expanding utilization of food banks in Ontario. *December 20, 1989.*

26. *Mr Ward*—Resolution—That with the agreement of the House Leaders and the Whips of each Party, committees may meet during the Winter

Adjournment at times other than those specified in the schedule tabled today with the Clerk of the Assembly to consider matters referred to them by the House or to consider matters designated pursuant to Standing Order 123. *December 20, 1989.*

27. *Mr Ward*—Resolution—That committees be authorized to release their reports during the Winter Adjournment by depositing a copy of any report with the Clerk of the Assembly, and upon the resumption of the meetings of the House, the Chairs of such committees shall bring any such reports before the House in accordance with the Standing Orders. *December 20, 1989.*

28. *Mr Ward*—Resolution—That the following substitutions be made to the membership of committees:—

On the Standing Committee on Government Agencies

Mr Sterling for Mrs Marland

On the Standing Committee on the Legislative Assembly

Mr Cureatz for Mr Sterling

On the Standing Committee on Public Accounts

Mr Harris for Mr Villeneuve

On the Standing Committee on Resources Development

Mr Harris for Mr Wiseman. *December 20, 1989.*

PRIVATE MEMBERS' MOTIONS

1. *Ms Bryden*—Resolution—That in the opinion of this House, recognizing that huge rent increases year after year are constituting a threat to the competitiveness and survival of retail business in commercial strips serving residential neighbourhoods, the Government of Ontario should introduce legisla-

tion as soon as possible to regulate the rents for such business establishments in order to provide those businesses with protection from gouging landlords comparable to the protection given to tenants of residential rental premises under the Residential Rent Regulation Act, 1986. *April 27, 1989.*

2. *Ms Bryden*—Resolution—That, in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a charter of rights for part-time workers should be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment. *April 27, 1989.*

8. *Mr Brandt*—Motion of Censure—That this House has lost confidence in the Minister of the Environment's capacity to exercise his responsibilities as a Minister of the Crown, specifically his duty under the *Environmental Protection Act* to insure the public's safety from toxic chemicals, as well as his duty under the *Freedom of Information and Protection of Privacy Act, 1987* to disclose information regarding a grave environmental, health or safety hazard to the public.

Therefore, this House:

- 1) urges the Minister of the Environment to resign; and
 - 2) calls on the Premier of Ontario to appoint a public enquiry into his government's failure to insure that the public was fully informed with regard to the importation, sale, and use of toxic fuel and the government's mismanagement of this issue resulting in potential health and safety risks to the citizens of Ontario. *May 15, 1989.*
-
10. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that non-refundable tax credits for political contributions effectively disenfranchise those without taxable incomes from this aspect of the political process; and, acknowledging the unfair treatment the current system affords lower-income Ontarians—many of whom are women, seniors, disabled, ethnic minorities, farmers and Native Canadians; legislation should be amended to provide for refundable tax credits to eliminate existing discrimination on the basis of income in the financing of Ontario political Parties and candidates. *May 17, 1989.*

 23. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing the shortage of acute care beds which is in part due to the use of these beds by chronic care patients and recognizing the added cost to the system as a result of this misuse of acute care beds and recognizing the higher quality of life afforded to patients who can stay in their own homes and the added efficiency in the system as a result of home care; the government of Ontario should establish and maintain a system of community palliative care services which would allow people to be cared for in their own homes

or in hospices where the atmosphere allows basic human dignity to be the top priority. *July 25, 1989.*

24. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing that Naturopathists have a body of knowledge on which the practice of naturopathy is based and recognizing the risk associated with an unlicensed person practicing naturopathy; the government of Ontario, recognizing the best interests of the public, should continue to legislate the regulation of Naturopathy. *July 25, 1989.*
 28. *Mr Cousens*—Resolution—That in the opinion of this House, recognizing that all sittings of the District and Provincial Courts within the Judicial District of York Region take place in Newmarket; and that considerable time, expense and inconvenience is incurred by residents of the Town of Markham and South York Region since numerous matters are heard in Provincial Offences Court on an ongoing basis; the Attorney General should take immediate steps to have a regular sitting of the Provincial Offences Court and the Provincial Court (Criminal Division) at a location in the Town of Markham. *October 16, 1989.*
 35. *Mr Runciman*—Resolution—That, in the opinion of this House, a Canadian-style Triple “E” Federal Senate (elected, regionally equal and effective) should be created and in the event that such a Senate is not implemented by Constitutional Agreement, the Government of Ontario should hold elections, in conjunction with the 1991 Municipal Elections, to choose people to fill present and future Ontario vacancies in the Senate. *November 27, 1989.*

NOTICES

GOVERNMENT MOTIONS

3. *Debated May 17, 18, 23, 24, 25; July 13; November 9, 29; December 20, 1989.*
25. *December 20, 1989.*
26. *December 20, 1989.*
27. *December 20, 1989.*
28. *December 20, 1989.*
29. *Mr Nixon (Brant-Haldimand)—Resolution—That the Treasurer of Ontario be authorized to pay the salaries of the civil servants and other necessary payments pending the voting of supply for the period commencing April 1, 1990, and ending June 30, 1990, such payments to be charged to the proper appropriation following the voting of supply. March 19, 1990.*

MOTION OF NON-CONFIDENCE UNDER STANDING ORDER 42(a)

1. *Mrs Grier—Notice—That this House deplores the government's failure to safeguard and improve the quality of the Ontario environment in general; and that in particular, this House deplores the government's failure to use powers available to it under existing legislation to prevent the recent massive, dangerous and toxic fire at Tyre King Tyre Recycling Limited near Hagersville, powers which would have protected the health of people and the environment in the Hagersville area, and more generally in southwestern Ontario; and the Minister failed to pursue fully the remedial measures outlined in his Order to Tyre King Tyre Recycling Ltd. of January 22, 1987; and for all these reasons, the House no longer has confidence in this government. March 19, 1990.*

PRIVATE MEMBERS' MOTIONS

1. *Ms Bryden—Resolution—That in the opinion of this House, recognizing that huge rent increases year after year are constituting a threat to the competitiveness and survival of retail business in commercial strips serving residential neighbourhoods, the Government of Ontario should introduce legislation as soon as possible to regulate the rents for such business establishments in order to provide those businesses with protection from gouging landlords comparable to the protection given to tenants of residential rental premises under the Residential Rent Regulation Act, 1986. April 27, 1989.*

2. *Ms Bryden—Resolution*—That, in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a charter of rights for part-time workers should be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment. *April 27, 1989.*
8. *Mr Brandt—Motion of Censure*—That this House has lost confidence in the Minister of the Environment's capacity to exercise his responsibilities as a Minister of the Crown, specifically his duty under the *Environmental Protection Act* to insure the public's safety from toxic chemicals, as well as his duty under the *Freedom of Information and Protection of Privacy Act, 1987* to disclose information regarding a grave environmental, health or safety hazard to the public.

Therefore, this House:

- 1) urges the Minister of the Environment to resign; and
 - 2) calls on the Premier of Ontario to appoint a public enquiry into his government's failure to insure that the public was fully informed with regard to the importation, sale, and use of toxic fuel and the government's mismanagement of this issue resulting in potential health and safety risks to the citizens of Ontario. *May 15, 1989.*
10. *Mr Harris—Resolution*—That, in the opinion of this House, recognizing that non-refundable tax credits for political contributions effectively disenfranchise those without taxable incomes from this aspect of the political process; and, acknowledging the unfair treatment the current system affords lower-income Ontarians—many of whom are women, seniors, disabled, ethnic minorities, farmers and Native Canadians; legislation should be amended to provide for refundable tax credits to eliminate existing discrimination on the basis of income in the financing of Ontario political Parties and candidates. *May 17, 1989.*
 23. *Mr Eves—Resolution*—That, in the opinion of this House, recognizing the shortage of acute care beds which is in part due to the use of these beds by chronic care patients and recognizing the added cost to the system as a result of this misuse of acute care beds and recognizing the higher quality of life afforded to patients who can stay in their own homes and the added efficiency in the system as a result of home care; the government of Ontario should establish and maintain a system of community palliative care services which would allow people to be cared for in their own homes or in hospices where the atmosphere allows basic human dignity to be the top priority. *July 25, 1989.*
 24. *Mr Eves—Resolution*—That, in the opinion of this House, recognizing that Naturopathists have a body of knowledge on which the practice of naturopathy is based and recognizing the risk associated with an unlicensed per-

son practicing naturopathy; the government of Ontario, recognizing the best interests of the public, should continue to legislate the regulation of Naturopathy. *July 25, 1989.*

28. *Mr Cousens*—Resolution—That in the opinion of this House, recognizing that all sittings of the District and Provincial Courts within the Judicial District of York Region take place in Newmarket; and that considerable time, expense and inconvenience is incurred by residents of the Town of Markham and South York Region since numerous matters are heard in Provincial Offences Court on an ongoing basis; the Attorney General should take immediate steps to have a regular sitting of the Provincial Offences Court and the Provincial Court (Criminal Division) at a location in the Town of Markham. *October 16, 1989.*
35. *Mr Runciman*—Resolution—That, in the opinion of this House, a Canadian-style Triple “E” Federal Senate (elected, regionally equal and effective) should be created and in the event that such a Senate is not implemented by Constitutional Agreement, the Government of Ontario should hold elections, in conjunction with the 1991 Municipal Elections, to choose people to fill present and future Ontario vacancies in the Senate. *November 27, 1989.*
36. *Mr McGuigan*—Resolution—That in the opinion of this House the Standing Committee on Social Development should be asked to review the current state of regulations relating to required and recommended vaccinations of children in the Province of Ontario and in particular, in conjunction with vaccine-injuries in Ontario, the Committee should consider and recommend:
 - an effective means of information about the benefits and risks of immunization and about known contra-indications;
 - an effective method of parental instruction about how to deal with reactions, should they occur;
 - an effective reporting system of adverse reactions in order to reduce the likelihood that children will receive contra-indicated inoculations;
 - a general assurance that recipients of government sponsored immunizations, who experienced a serious adverse reaction, will be provided with compensation without the need to establish liability based on the elusive tort theory. *December 20, 1989.*
37. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that 32 tax hikes have been inflicted on the people of Ontario since 1985 because of government growth and spending increases; the Government of Ontario should immediately freeze current Public Service staffing levels, and present a balanced budget with no tax increases in the spring of 1990. *March 19, 1990.*
38. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing the need to protect and enhance the environment; the Government of Ontario

should not offer any grants or loans for private sector projects not utilizing the best available environmental technology, and further, grant and loan criteria—specifically the Premier's Technology fund—should be amended by the Government of Ontario to give priority to projects developing environmental technology. *March 19, 1990.*

39. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that everyone has the right to life, liberty and security of the person, and the right not to be deprived thereof except in accordance with the principles of fundamental justice; the Government of Ontario should petition the Government of Canada to add the fundamental right of enjoyment of property to the Canadian Charter of Rights. *March 19, 1990.*
40. *Mrs Marland*—Resolution—That, in the opinion of this House, recognizing that the Province of Ontario has imposed a special tax of \$5 (plus a 40-cent retail sales tax) on every new tire sold in Ontario, and recognizing that used tires take up much needed space in existing landfill sites, the government should establish used tire depots in various regions of Ontario where used tires would be collected and shredded for recycling, and further that the cost of developing and operating these sites be paid for from the revenues collected from the above-noted taxes. *March 19, 1990.*

NOTICES

GOVERNMENT MOTIONS

3. *Debated May 17, 18, 23, 24, 25; July 13; November 9, 29; December 20, 1989.*
29. *Mr Nixon (Brant-Haldimand)—Resolution—That the Treasurer of Ontario be authorized to pay the salaries of the civil servants and other necessary payments pending the voting of supply for the period commencing April 1, 1990, and ending June 30, 1990, such payments to be charged to the proper appropriation following the voting of supply. March 19, 1990.*

MOTION OF NON-CONFIDENCE UNDER STANDING ORDER 42(a)

1. *Mrs Grier—Notice—That this House deplores the government's failure to safeguard and improve the quality of the Ontario environment in general; and that in particular, this House deplores the government's failure to use powers available to it under existing legislation to prevent the recent massive, dangerous and toxic fire at Tyre King Tyre Recycling Limited near Hagersville, powers which would have protected the health of people and the environment in the Hagersville area, and more generally in southwestern Ontario; and the Minister failed to pursue fully the remedial measures outlined in his Order to Tyre King Tyre Recycling Ltd. of January 22, 1987; and for all these reasons, the House no longer has confidence in this government. March 19, 1990.*

PRIVATE MEMBERS' MOTIONS

1. *Ms Bryden—Resolution—That in the opinion of this House, recognizing that huge rent increases year after year are constituting a threat to the competitiveness and survival of retail business in commercial strips serving residential neighbourhoods, the Government of Ontario should introduce legislation as soon as possible to regulate the rents for such business establishments in order to provide those businesses with protection from gouging landlords comparable to the protection given to tenants of residential rental premises under the Residential Rent Regulation Act, 1986. April 27, 1989.*
2. *Ms Bryden—Resolution—That, in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a charter of rights for part-time workers should be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and*

retraining and readjustment programs provided for other workers displaced by technological change in the same establishment. *April 27, 1989.*

8. *Mr Brandt*—Motion of Censure—That this House has lost confidence in the Minister of the Environment's capacity to exercise his responsibilities as a Minister of the Crown, specifically his duty under the *Environmental Protection Act* to insure the public's safety from toxic chemicals, as well as his duty under the *Freedom of Information and Protection of Privacy Act, 1987* to disclose information regarding a grave environmental, health or safety hazard to the public.

Therefore, this House:

- 1) urges the Minister of the Environment to resign; and
- 2) calls on the Premier of Ontario to appoint a public enquiry into his government's failure to insure that the public was fully informed with regard to the importation, sale, and use of toxic fuel and the government's mismanagement of this issue resulting in potential health and safety risks to the citizens of Ontario. *May 15, 1989.*

10. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that non-refundable tax credits for political contributions effectively disenfranchise those without taxable incomes from this aspect of the political process; and, acknowledging the unfair treatment the current system affords lower-income Ontarians—many of whom are women, seniors, disabled, ethnic minorities, farmers and Native Canadians; legislation should be amended to provide for refundable tax credits to eliminate existing discrimination on the basis of income in the financing of Ontario political Parties and candidates. *May 17, 1989.*

23. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing the shortage of acute care beds which is in part due to the use of these beds by chronic care patients and recognizing the added cost to the system as a result of this misuse of acute care beds and recognizing the higher quality of life afforded to patients who can stay in their own homes and the added efficiency in the system as a result of home care; the government of Ontario should establish and maintain a system of community palliative care services which would allow people to be cared for in their own homes or in hospices where the atmosphere allows basic human dignity to be the top priority. *July 25, 1989.*

24. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing that Naturopathists have a body of knowledge on which the practice of naturopathy is based and recognizing the risk associated with an unlicensed person practicing naturopathy; the government of Ontario, recognizing the best interests of the public, should continue to legislate the regulation of Naturopathy. *July 25, 1989.*

28. *Mr Cousens*—Resolution—That in the opinion of this House, recognizing that all sittings of the District and Provincial Courts within the Judicial District of York Region take place in Newmarket; and that considerable

time, expense and inconvenience is incurred by residents of the Town of Markham and South York Region since numerous matters are heard in Provincial Offences Court on an ongoing basis; the Attorney General should take immediate steps to have a regular sitting of the Provincial Offences Court and the Provincial Court (Criminal Division) at a location in the Town of Markham. *October 16, 1989.*

35. *Mr Runciman*—Resolution—That, in the opinion of this House, a Canadian-style Triple “E” Federal Senate (elected, regionally equal and effective) should be created and in the event that such a Senate is not implemented by Constitutional Agreement, the Government of Ontario should hold elections, in conjunction with the 1991 Municipal Elections, to choose people to fill present and future Ontario vacancies in the Senate. *November 27, 1989.*
37. *Mr McGuigan*—Resolution—That in the opinion of this House, the Standing Committee on Social Development should be asked to review the current state of regulations relating to required and recommended vaccinations of children in the Province of Ontario and in particular, in conjunction with vaccine-injuries in Ontario, the Committee should consider and recommend:
 - an effective means of information about the benefits and risks of immunization and about known contra-indications;
 - an effective method of parental instruction about how to deal with reactions, should they occur;
 - an effective reporting system of adverse reactions in order to reduce the likelihood that children will receive contra-indicated inoculations;
 - a general assurance that recipients of government sponsored immunizations, who experienced a serious adverse reaction, will be provided with compensation without the need to establish liability based on the elusive tort theory. *December 20, 1989.*
38. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that 32 tax hikes have been inflicted on the people of Ontario since 1985 because of government growth and spending increases; the Government of Ontario should immediately freeze current Public Service staffing levels, and present a balanced budget with no tax increases in the spring of 1990. *March 19, 1990.*
39. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing the need to protect and enhance the environment; the Government of Ontario should not offer any grants or loans for private sector projects not utilizing the best available environmental technology, and further, grant and loan criteria—specifically the Premier’s Technology fund—should be amended by the Government of Ontario to give priority to projects developing environmental technology. *March 19, 1990.*

40. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that everyone has the right to life, liberty and security of the person, and the right not to be deprived thereof except in accordance with the principles of fundamental justice; the Government of Ontario should petition the Government of Canada to add the fundamental right of enjoyment of property to the Canadian Charter of Rights. *March 19, 1990.*
41. *Mrs Marland*—Resolution—That, in the opinion of this House, recognizing that the Province of Ontario has imposed a special tax of \$5 (plus a 40-cent retail sales tax) on every new tire sold in Ontario, and recognizing that used tires take up much needed space in existing landfill sites, the government should establish used tire depots in various regions of Ontario where used tires would be collected and shredded for recycling, and further that the cost of developing and operating these sites be paid for from the revenues collected from the above-noted taxes. *March 19, 1990.*

NOTICES

GOVERNMENT MOTION

29. *Mr Nixon* (Brant-Haldimand)—Resolution—That the Treasurer of Ontario be authorized to pay the salaries of the civil servants and other necessary payments pending the voting of supply for the period commencing April 1, 1990, and ending June 30, 1990, such payments to be charged to the proper appropriation following the voting of supply. *March 19, 1990.*
-

MOTION OF NON-CONFIDENCE UNDER STANDING ORDER 42(a)

1. *Mrs Grier*—Notice—That this House deplores the government's failure to safeguard and improve the quality of the Ontario environment in general; and that in particular, this House deplores the government's failure to use powers available to it under existing legislation to prevent the recent massive, dangerous and toxic fire at Tyre King Tyre Recycling Limited near Hagersville, powers which would have protected the health of people and the environment in the Hagersville area, and more generally in southwestern Ontario; and the Minister failed to pursue fully the remedial measures outlined in his Order to Tyre King Tyre Recycling Ltd. of January 22, 1987; and for all these reasons, the House no longer has confidence in this government. *March 19, 1990.*
-

PRIVATE MEMBERS' MOTIONS

1. *Ms Bryden*—Resolution—That in the opinion of this House, recognizing that huge rent increases year after year are constituting a threat to the competitiveness and survival of retail business in commercial strips serving residential neighbourhoods, the Government of Ontario should introduce legislation as soon as possible to regulate the rents for such business establishments in order to provide those businesses with protection from gouging landlords comparable to the protection given to tenants of residential rental premises under the Residential Rent Regulation Act, 1986. *April 27, 1989.*
2. *Ms Bryden*—Resolution—That, in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a charter of rights for part-time workers should be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment. *April 27, 1989.*

8. *Mr Brandt*—Motion of Censure—That this House has lost confidence in the Minister of the Environment's capacity to exercise his responsibilities as a Minister of the Crown, specifically his duty under the *Environmental Protection Act* to insure the public's safety from toxic chemicals, as well as his duty under the *Freedom of Information and Protection of Privacy Act, 1987* to disclose information regarding a grave environmental, health or safety hazard to the public.

Therefore, this House:

- 1) urges the Minister of the Environment to resign; and
 - 2) calls on the Premier of Ontario to appoint a public enquiry into his government's failure to insure that the public was fully informed with regard to the importation, sale, and use of toxic fuel and the government's mismanagement of this issue resulting in potential health and safety risks to the citizens of Ontario. *May 15, 1989.*
10. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that non-refundable tax credits for political contributions effectively disenfranchise those without taxable incomes from this aspect of the political process; and, acknowledging the unfair treatment the current system affords lower-income Ontarians—many of whom are women, seniors, disabled, ethnic minorities, farmers and Native Canadians; legislation should be amended to provide for refundable tax credits to eliminate existing discrimination on the basis of income in the financing of Ontario political Parties and candidates. *May 17, 1989.*
23. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing the shortage of acute care beds which is in part due to the use of these beds by chronic care patients and recognizing the added cost to the system as a result of this misuse of acute care beds and recognizing the higher quality of life afforded to patients who can stay in their own homes and the added efficiency in the system as a result of home care; the government of Ontario should establish and maintain a system of community palliative care services which would allow people to be cared for in their own homes or in hospices where the atmosphere allows basic human dignity to be the top priority. *July 25, 1989.*
24. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing that Naturopathists have a body of knowledge on which the practice of naturopathy is based and recognizing the risk associated with an unlicensed person practicing naturopathy; the government of Ontario, recognizing the best interests of the public, should continue to legislate the regulation of Naturopathy. *July 25, 1989.*
28. *Mr Cousens*—Resolution—That in the opinion of this House, recognizing that all sittings of the District and Provincial Courts within the Judicial District of York Region take place in Newmarket; and that considerable time, expense and inconvenience is incurred by residents of the Town of Markham and South York Region since numerous matters are heard in Provincial Offences Court on an ongoing basis; the Attorney General

should take immediate steps to have a regular sitting of the Provincial Offences Court and the Provincial Court (Criminal Division) at a location in the Town of Markham. *October 16, 1989.*

35. *Mr Runciman*—Resolution—That, in the opinion of this House, a Canadian-style Triple “E” Federal Senate (elected, regionally equal and effective) should be created and in the event that such a Senate is not implemented by Constitutional Agreement, the Government of Ontario should hold elections, in conjunction with the 1991 Municipal Elections, to choose people to fill present and future Ontario vacancies in the Senate. *November 27, 1989.*
37. *Mr McGuigan*—Resolution—That in the opinion of this House, the Standing Committee on Social Development should be asked to review the current state of regulations relating to required and recommended vaccinations of children in the Province of Ontario and in particular, in conjunction with vaccine-injuries in Ontario, the Committee should consider and recommend:
 - an effective means of information about the benefits and risks of immunization and about known contra-indications;
 - an effective method of parental instruction about how to deal with reactions, should they occur;
 - an effective reporting system of adverse reactions in order to reduce the likelihood that children will receive contra-indicated inoculations;
 - a general assurance that recipients of government sponsored immunizations, who experienced a serious adverse reaction, will be provided with compensation without the need to establish liability based on the elusive tort theory. *December 20, 1989.*
38. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that 32 tax hikes have been inflicted on the people of Ontario since 1985 because of government growth and spending increases; the Government of Ontario should immediately freeze current Public Service staffing levels, and present a balanced budget with no tax increases in the spring of 1990. *March 19, 1990.*
39. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing the need to protect and enhance the environment; the Government of Ontario should not offer any grants or loans for private sector projects not utilizing the best available environmental technology, and further, grant and loan criteria—specifically the Premier’s Technology fund—should be amended by the Government of Ontario to give priority to projects developing environmental technology. *March 19, 1990.*
40. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that everyone has the right to life, liberty and security of the person, and the right not to be deprived thereof except in accordance with the principles of fundamental justice; the Government of Ontario should petition the Gov-

ernment of Canada to add the fundamental right of enjoyment of property to the Canadian Charter of Rights. *March 19, 1990.*

41. *Mrs Marland*—Resolution—That, in the opinion of this House, recognizing that the Province of Ontario has imposed a special tax of \$5 (plus a 40-cent retail sales tax) on every new tire sold in Ontario, and recognizing that used tires take up much needed space in existing landfill sites, the government should establish used tire depots in various regions of Ontario where used tires would be collected and shredded for recycling, and further that the cost of developing and operating these sites be paid for from the revenues collected from the above-noted taxes. *March 19, 1990.*
42. *Mr Mackenzie*—Resolution—That, in the opinion of this House, recognizing the current Regulations covering hygiene on construction sites are outdated and in need of amendment; that requirements for the provision of toilet and washroom facilities should be fully reflected in the Regulations of the Occupational Health and Safety Act (Sections 89/90); and that the requirements should be both practical and workable, result in the improvement of jobsite working conditions, and hence improve productivity on construction jobsites in the province. 1. The owner/constructor/project manager shall provide toilet and washing facilities on all construction sites in accordance with the following: a) where there are 15 or more workers on a project for a minimum period of one month the facilities shall include one flush (non-chemical) toilet and one urinal and one basin; and b) for each additional 30 workers or part thereof, an additional flush toilet, urinal and wash basin shall be added to facilities. 2. The costs borne by the owner/constructor/project manager in meeting the responsibilities of sections 89 & 90 cannot be transferred to other subcontractors/forces on the project. 3. The owner/constructor/project manager shall have the option of providing the necessary facilities via access to facilities existing or adjacent to the worksite; via temporary fixed facilities constructed on the site; or via mobile units; conditional on site services being available. 4. On high-rise projects, the necessary facilities shall be made available on every fourth floor. 5. The toilet facilities provided shall be equipped as follows: a) within easy access of work sites, b) built so that the occupant is shielded from view, and protected from weather and falling objects. c) provided with natural or artificial lighting. d) provided with sufficient toilet paper and disinfectant. e) kept in a clean and sanitary condition. f) supplied with toilet seats and covers. g) heated to a minimum of 18 degrees C. h) suitably ventilated. 6. Basins provided shall have as a minimum standard a) hot and cold running water. b) soap or hand cleaner. c) hand towels. 90 1.a). Where WHMIS-class products are present on the jobsite, washing facilities meeting the requirements of the applicable material safety data sheets shall be provided. b). If showers (with the exception of safety showers) are required, they shall have as a minimum standard a) hot and cold running water. b) soap or hand cleaner. c) paper towels or individual hand towels. *March 21, 1990.*
43. *Ms Munro*—Resolution—That, in the opinion of this House, recognizing that the current practice of the construction industry regarding the provision of sanitary and toilet facilities for construction workers is outdated, the Ministry of Labour should make appropriate amendments to Regulation 691 of

R.R.O. 1980 under the *Occupational Health and Safety Act* to upgrade the minimum requirements for sanitary and toilet facilities on construction sites, and in particular should amend the regulations to require employers to provide flush toilets and hand-washing facilities (including soap and running water) at all construction sites and to provide separate facilities for each sex at sites where male and female workers are present. *March 21, 1990.*

44. *Mrs Smith* (London South)—Resolution—That, in the opinion of this House, since recent statistics continue to disclose that a sizeable portion of the women in our society are exposed to physical or sexual abuse, and that most studies would indicate that this behaviour pattern in men is often a result of childhood exposure to these same patterns of behaviour, the Government of Ontario, and in particular the Ministry of Education, should earmark specific funds to create programs (and material) delivered by respected male role models, to address and reverse these negative attitudes and that social programs provided for assisting male abusers be given consideration for inclusion in the funding programs of the Ministry of the Solicitor General and the Women's Directorate. *March 21, 1990.*

PRIVATE MEMBERS' BUSINESS TO BE DEBATED

(Precedence in accordance with the Standing Order 94(d).)

Ballot Item Number 35. *To be debated Thursday, March 22, 1990.*

Second Reading Bill 112. An Act to amend the Education Act. *Mr Johnston* (Scarborough West).

Ballot Item Number 36. *To be debated Thursday, March 22, 1990.*

Mr Harris—Resolution—That, in the opinion of this House, recognizing that 32 tax hikes have been inflicted on the people of Ontario since 1985 because of government growth and spending increases; the Government of Ontario should immediately freeze current Public Service staffing levels, and present a balanced budget with no tax increases in the spring of 1990.

Ballot Item Number 37. *To be debated Thursday, March 29, 1990.*

Mrs Smith (London South)—Resolution—That, in the opinion of this House, since recent statistics continue to disclose that a sizeable portion of the women in our society are exposed to physical or sexual abuse, and that most studies would indicate that this behaviour pattern in men is often a result of childhood exposure to these same patterns of behaviour, the Government of Ontario, and in particular the Ministry of Education, should earmark specific funds to create programs (and material) delivered by respected male role models, to address and reverse these negative attitudes and that social programs provided for assisting male abusers be given consideration for inclusion in the funding programs of the Ministry of the Solicitor General and the Women's Directorate.

Ballot Item Number 38. *To be debated Thursday, March 29, 1990.*

Second Reading Bill 82, An Act to amend the Employment Standards Act. *Mr Mackenzie.*

Ballot Item Number 39. *To be debated Thursday, April 5, 1990.*

NOTICES

GOVERNMENT MOTION

29. *Mr Nixon (Brant-Haldimand)*—Resolution—That the Treasurer of Ontario be authorized to pay the salaries of the civil servants and other necessary payments pending the voting of supply for the period commencing April 1, 1990, and ending June 30, 1990, such payments to be charged to the proper appropriation following the voting of supply. *March 19, 1990.*

MOTION OF NON-CONFIDENCE UNDER STANDING ORDER 42(a)

1. *Debated March 21, 1990.*
-

PRIVATE MEMBERS' MOTIONS

1. *Ms Bryden*—Resolution—That in the opinion of this House, recognizing that huge rent increases year after year are constituting a threat to the competitiveness and survival of retail business in commercial strips serving residential neighbourhoods, the Government of Ontario should introduce legislation as soon as possible to regulate the rents for such business establishments in order to provide those businesses with protection from gouging landlords comparable to the protection given to tenants of residential rental premises under the Residential Rent Regulation Act, 1986. *April 27, 1989.*
2. *Ms Bryden*—Resolution—That, in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a charter of rights for part-time workers should be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment. *April 27, 1989.*
8. *Mr Brandt*—Motion of Censure—That this House has lost confidence in the Minister of the Environment's capacity to exercise his responsibilities as a Minister of the Crown, specifically his duty under the *Environmental Protection Act* to insure the public's safety from toxic chemicals, as well as his duty under the *Freedom of Information and Protection of Privacy Act, 1987* to disclose information regarding a grave environmental, health or safety hazard to the public.

Therefore, this House:

- 1) urges the Minister of the Environment to resign; and
 - 2) calls on the Premier of Ontario to appoint a public enquiry into his government's failure to insure that the public was fully informed with regard to the importation, sale, and use of toxic fuel and the government's mismanagement of this issue resulting in potential health and safety risks to the citizens of Ontario. *May 15, 1989.*
10. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that non-refundable tax credits for political contributions effectively disenfranchise those without taxable incomes from this aspect of the political process; and, acknowledging the unfair treatment the current system affords lower-income Ontarians—many of whom are women, seniors, disabled, ethnic minorities, farmers and Native Canadians; legislation should be amended to provide for refundable tax credits to eliminate existing discrimination on the basis of income in the financing of Ontario political Parties and candidates. *May 17, 1989.*
 23. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing the shortage of acute care beds which is in part due to the use of these beds by chronic care patients and recognizing the added cost to the system as a result of this misuse of acute care beds and recognizing the higher quality of life afforded to patients who can stay in their own homes and the added efficiency in the system as a result of home care; the government of Ontario should establish and maintain a system of community palliative care services which would allow people to be cared for in their own homes or in hospices where the atmosphere allows basic human dignity to be the top priority. *July 25, 1989.*
 24. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing that Naturopathists have a body of knowledge on which the practice of naturopathy is based and recognizing the risk associated with an unlicensed person practicing naturopathy; the government of Ontario, recognizing the best interests of the public, should continue to legislate the regulation of Naturopathy. *July 25, 1989.*
 28. *Mr Cousens*—Resolution—That in the opinion of this House, recognizing that all sittings of the District and Provincial Courts within the Judicial District of York Region take place in Newmarket; and that considerable time, expense and inconvenience is incurred by residents of the Town of Markham and South York Region since numerous matters are heard in Provincial Offences Court on an ongoing basis; the Attorney General should take immediate steps to have a regular sitting of the Provincial Offences Court and the Provincial Court (Criminal Division) at a location in the Town of Markham. *October 16, 1989.*
 35. *Mr Runciman*—Resolution—That, in the opinion of this House, a Canadian-style Triple "E" Federal Senate (elected, regionally equal and effective) should be created and in the event that such a Senate is not implemented by Constitutional Agreement, the Government of Ontario should hold elections, in conjunction with the 1991 Municipal Elections, to choose peo-

ple to fill present and future Ontario vacancies in the Senate. *November 27, 1989.*

37. *Mr McGuigan*—Resolution—That in the opinion of this House, the Standing Committee on Social Development should be asked to review the current state of regulations relating to required and recommended vaccinations of children in the Province of Ontario and in particular, in conjunction with vaccine-injuries in Ontario, the Committee should consider and recommend:
 - an effective means of information about the benefits and risks of immunization and about known contra-indications;
 - an effective method of parental instruction about how to deal with reactions, should they occur;
 - an effective reporting system of adverse reactions in order to reduce the likelihood that children will receive contra-indicated inoculations;
 - a general assurance that recipients of government sponsored immunizations, who experienced a serious adverse reaction, will be provided with compensation without the need to establish liability based on the elusive tort theory. *December 20, 1989.*
38. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that 32 tax hikes have been inflicted on the people of Ontario since 1985 because of government growth and spending increases; the Government of Ontario should immediately freeze current Public Service staffing levels, and present a balanced budget with no tax increases in the spring of 1990. *March 19, 1990.*
39. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing the need to protect and enhance the environment; the Government of Ontario should not offer any grants or loans for private sector projects not utilizing the best available environmental technology, and further, grant and loan criteria—specifically the Premier's Technology fund—should be amended by the Government of Ontario to give priority to projects developing environmental technology. *March 19, 1990.*
40. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that everyone has the right to life, liberty and security of the person, and the right not to be deprived thereof except in accordance with the principles of fundamental justice; the Government of Ontario should petition the Government of Canada to add the fundamental right of enjoyment of property to the Canadian Charter of Rights. *March 19, 1990.*
41. *Mrs Marland*—Resolution—That, in the opinion of this House, recognizing that the Province of Ontario has imposed a special tax of \$5 (plus a 40-cent retail sales tax) on every new tire sold in Ontario, and recognizing that used tires take up much needed space in existing landfill sites, the government should establish used tire depots in various regions of Ontario where used tires would be collected and shredded for recycling, and further that the

cost of developing and operating these sites be paid for from the revenues collected from the above-noted taxes. *March 19, 1990.*

42. *Mr Mackenzie*—Resolution—That, in the opinion of this House, recognizing the current Regulations covering hygiene on construction sites are outdated and in need of amendment; that requirements for the provision of toilet and washroom facilities should be fully reflected in the Regulations of the Occupational Health and Safety Act (Sections 89/90); and that the requirements should be both practical and workable, result in the improvement of jobsite working conditions, and hence improve productivity on construction jobsites in the province. 1. The owner/constructor/project manager shall provide toilet and washing facilities on all construction sites in accordance with the following: a) where there are 15 or more workers on a project for a minimum period of one month the facilities shall include one flush (non-chemical) toilet and one urinal and one basin; and b) for each additional 30 workers or part thereof, an additional flush toilet, urinal and wash basin shall be added to facilities. 2. The costs borne by the owner/constructor/project manager in meeting the responsibilities of sections 89 & 90 cannot be transferred to other subcontractors/forces on the project. 3. The owner/constructor/project manager shall have the option of providing the necessary facilities via access to facilities existing or adjacent to the worksite; via temporary fixed facilities constructed on the site; or via mobile units; conditional on site services being available. 4. On high-rise projects, the necessary facilities shall be made available on every fourth floor. 5. The toilet facilities provided shall be equipped as follows: a) within easy access of work sites, b) built so that the occupant is shielded from view, and protected from weather and falling objects. c) provided with natural or artificial lighting. d) provided with sufficient toilet paper and disinfectant. e) kept in a clean and sanitary condition. f) supplied with toilet seats and covers. g) heated to a minimum of 18 degrees C. h) suitably ventilated. 6. Basins provided shall have as a minimum standard a) hot and cold running water. b) soap or hand cleaner. c) hand towels. 90 1.a). Where WHMIS-class products are present on the jobsite, washing facilities meeting the requirements of the applicable material safety data sheets shall be provided. b). If showers (with the exception of safety showers) are required, they shall have as a minimum standard a) hot and cold running water. b) soap or hand cleaner. c) paper towels or individual hand towels. *March 21, 1990.*
43. *Ms Oddie Munro*—Resolution—That, in the opinion of this House, recognizing that the current practice of the construction industry regarding the provision of sanitary and toilet facilities for construction workers is outdated, the Ministry of Labour should make appropriate amendments to Regulation 691 of R.R.O. 1980 under the *Occupational Health and Safety Act* to upgrade the minimum requirements for sanitary and toilet facilities on construction sites, and in particular should amend the regulations to require employers to provide flush toilets and hand-washing facilities (including soap and running water) at all construction sites and to provide separate facilities for each sex at sites where male and female workers are present. *March 21, 1990.*

44. *Mrs Smith* (London South)—Resolution—That, in the opinion of this House, since recent statistics continue to disclose that a sizeable portion of the women in our society are exposed to physical or sexual abuse, and that most studies would indicate that this behaviour pattern in men is often a result of childhood exposure to these same patterns of behaviour, the Government of Ontario, and in particular the Ministry of Education, should earmark specific funds to create programs (and material) delivered by respected male role models, to address and reverse these negative attitudes and that social programs provided for assisting male abusers be given consideration for inclusion in the funding programs of the Ministry of the Solicitor General and the Women's Directorate. *March 21, 1990.*
45. *Mr Rae* (York South)—Resolution—That, in the opinion of this House, recognizing that unequal opportunity for employment and promotion exists in the province of Ontario for women, members of visible minority groups, native persons and people with disabilities, and recognizing that voluntary efforts to increase the representation of employable persons with such characteristics by employers have profoundly failed in both the private and public sectors of employment in Ontario, and recognizing that the only remedy to such an inequitable situation in Ontario is the introduction of a legislated mandatory employment equity program with enforceable goals and timetables, in both the private and public sectors, and with an emphasis on removing existing barriers to employment and promotion through the provision by government of such important and necessary services as job training, and child care, all parties in Ontario should join together to secure the enactment in the current legislative session of such employment equity legislation for Ontario. *March 22, 1990.*

NOTICES

GOVERNMENT MOTION

29. *Mr Nixon (Brant-Haldimand)*—Resolution—That the Treasurer of Ontario be authorized to pay the salaries of the civil servants and other necessary payments pending the voting of supply for the period commencing April 1, 1990, and ending June 30, 1990, such payments to be charged to the proper appropriation following the voting of supply. *March 19, 1990.*

PRIVATE MEMBERS' MOTIONS

1. *Ms Bryden*—Resolution—That in the opinion of this House, recognizing that huge rent increases year after year are constituting a threat to the competitiveness and survival of retail business in commercial strips serving residential neighbourhoods, the Government of Ontario should introduce legislation as soon as possible to regulate the rents for such business establishments in order to provide those businesses with protection from gouging landlords comparable to the protection given to tenants of residential rental premises under the Residential Rent Regulation Act, 1986. *April 27, 1989.*
2. *Ms Bryden*—Resolution—That, in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a charter of rights for part-time workers should be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment. *April 27, 1989.*
8. *Mr Brandt*—Motion of Censure—That this House has lost confidence in the Minister of the Environment's capacity to exercise his responsibilities as a Minister of the Crown, specifically his duty under the *Environmental Protection Act* to insure the public's safety from toxic chemicals, as well as his duty under the *Freedom of Information and Protection of Privacy Act, 1987* to disclose information regarding a grave environmental, health or safety hazard to the public.

Therefore, this House:

- 1) urges the Minister of the Environment to resign; and
- 2) calls on the Premier of Ontario to appoint a public enquiry into his government's failure to insure that the public was fully informed with regard to the importation, sale, and use of toxic fuel and the government's mismanagement of this issue resulting in potential health and safety risks to the citizens of Ontario. *May 15, 1989.*

10. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that non-refundable tax credits for political contributions effectively disenfranchise those without taxable incomes from this aspect of the political process; and, acknowledging the unfair treatment the current system affords lower-income Ontarians—many of whom are women, seniors, disabled, ethnic minorities, farmers and Native Canadians; legislation should be amended to provide for refundable tax credits to eliminate existing discrimination on the basis of income in the financing of Ontario political Parties and candidates. *May 17, 1989.*
23. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing the shortage of acute care beds which is in part due to the use of these beds by chronic care patients and recognizing the added cost to the system as a result of this misuse of acute care beds and recognizing the higher quality of life afforded to patients who can stay in their own homes and the added efficiency in the system as a result of home care; the government of Ontario should establish and maintain a system of community palliative care services which would allow people to be cared for in their own homes or in hospices where the atmosphere allows basic human dignity to be the top priority. *July 25, 1989.*
24. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing that Naturopathists have a body of knowledge on which the practice of naturopathy is based and recognizing the risk associated with an unlicensed person practicing naturopathy; the government of Ontario, recognizing the best interests of the public, should continue to legislate the regulation of Naturopathy. *July 25, 1989.*
28. *Mr Cousens*—Resolution—That in the opinion of this House, recognizing that all sittings of the District and Provincial Courts within the Judicial District of York Region take place in Newmarket; and that considerable time, expense and inconvenience is incurred by residents of the Town of Markham and South York Region since numerous matters are heard in Provincial Offences Court on an ongoing basis; the Attorney General should take immediate steps to have a regular sitting of the Provincial Offences Court and the Provincial Court (Criminal Division) at a location in the Town of Markham. *October 16, 1989.*
35. *Mr Runciman*—Resolution—That, in the opinion of this House, a Canadian-style Triple "E" Federal Senate (elected, regionally equal and effective) should be created and in the event that such a Senate is not implemented by Constitutional Agreement, the Government of Ontario should hold elections, in conjunction with the 1991 Municipal Elections, to choose people to fill present and future Ontario vacancies in the Senate. *November 27, 1989.*
37. *Mr McGuigan*—Resolution—That in the opinion of this House, the Standing Committee on Social Development should be asked to review the current state of regulations relating to required and recommended vaccinations of children in the Province of Ontario and in particular, in conjunction with vaccine-injuries in Ontario, the Committee should consider and recommend:

- an effective means of information about the benefits and risks of immunization and about known contra-indications;
- an effective method of parental instruction about how to deal with reactions, should they occur;
- an effective reporting system of adverse reactions in order to reduce the likelihood that children will receive contra-indicated inoculations;
- a general assurance that recipients of government sponsored immunizations, who experienced a serious adverse reaction, will be provided with compensation without the need to establish liability based on the elusive tort theory. *December 20, 1989.*

38. *Debated March 22, 1990.*

39. *Mr Harris—Resolution—That, in the opinion of this House, recognizing the need to protect and enhance the environment; the Government of Ontario should not offer any grants or loans for private sector projects not utilizing the best available environmental technology, and further, grant and loan criteria—specifically the Premier's Technology fund—should be amended by the Government of Ontario to give priority to projects developing environmental technology. March 19, 1990.*
40. *Mr Harris—Resolution—That, in the opinion of this House, recognizing that everyone has the right to life, liberty and security of the person, and the right not to be deprived thereof except in accordance with the principles of fundamental justice; the Government of Ontario should petition the Government of Canada to add the fundamental right of enjoyment of property to the Canadian Charter of Rights. March 19, 1990.*
41. *Mrs Marland—Resolution—That, in the opinion of this House, recognizing that the Province of Ontario has imposed a special tax of \$5 (plus a 40-cent retail sales tax) on every new tire sold in Ontario, and recognizing that used tires take up much needed space in existing landfill sites, the government should establish used tire depots in various regions of Ontario where used tires would be collected and shredded for recycling, and further that the cost of developing and operating these sites be paid for from the revenues collected from the above-noted taxes. March 19, 1990.*
42. *Mr Mackenzie—Resolution—That, in the opinion of this House, recognizing the current Regulations covering hygiene on construction sites are outdated and in need of amendment; that requirements for the provision of toilet and washroom facilities should be fully reflected in the Regulations of the Occupational Health and Safety Act (Sections 89/90); and that the requirements should be both practical and workable, result in the improvement of jobsite working conditions, and hence improve productivity on construction jobsites in the province. 1. The owner/constructor/project manager shall provide toilet and washing facilities on all construction sites in accordance with the following: a) where there are 15 or more workers on a project for a minimum period of one month the facilities shall include one flush (non-chemical) toilet and one urinal and one basin; and b) for each*

additional 30 workers or part thereof, an additional flush toilet, urinal and wash basin shall be added to facilities. 2. The costs borne by the owner/constructor/project manager in meeting the responsibilities of sections 89 & 90 cannot be transferred to other subcontractors/forces on the project. 3. The owner/constructor/project manager shall have the option of providing the necessary facilities via access to facilities existing or adjacent to the worksite; via temporary fixed facilities constructed on the site; or via mobile units; conditional on site services being available. 4. On high-rise projects, the necessary facilities shall be made available on every fourth floor. 5. The toilet facilities provided shall be equipped as follows: a) within easy access of work sites, b) built so that the occupant is shielded from view, and protected from weather and falling objects. c) provided with natural or artificial lighting. d) provided with sufficient toilet paper and disinfectant. e) kept in a clean and sanitary condition. f) supplied with toilet seats and covers. g) heated to a minimum of 18 degrees C. h) suitably ventilated. 6. Basins provided shall have as a minimum standard a) hot and cold running water. b) soap or hand cleaner. c) hand towels. 90 1.a). Where WHMIS-class products are present on the jobsite, washing facilities meeting the requirements of the applicable material safety data sheets shall be provided. b). If showers (with the exception of safety showers) are required, they shall have as a minimum standard a) hot and cold running water. b) soap or hand cleaner. c) paper towels or individual hand towels. *March 21, 1990.*

43. *Ms Oddie Munro*—Resolution—That, in the opinion of this House, recognizing that the current practice of the construction industry regarding the provision of sanitary and toilet facilities for construction workers is outdated, the Ministry of Labour should make appropriate amendments to Regulation 691 of R.R.O. 1980 under the *Occupational Health and Safety Act* to upgrade the minimum requirements for sanitary and toilet facilities on construction sites, and in particular should amend the regulations to require employers to provide flush toilets and hand-washing facilities (including soap and running water) at all construction sites and to provide separate facilities for each sex at sites where male and female workers are present. *March 21, 1990.*
44. *Mrs Smith* (London South)—Resolution—That, in the opinion of this House, since recent statistics continue to disclose that a sizeable portion of the women in our society are exposed to physical or sexual abuse, and that most studies would indicate that this behaviour pattern in men is often a result of childhood exposure to these same patterns of behaviour, the Government of Ontario, and in particular the Ministry of Education, should earmark specific funds to create programs (and material) delivered by respected male role models, to address and reverse these negative attitudes and that social programs provided for assisting male abusers be given consideration for inclusion in the funding programs of the Ministry of the Solicitor General and the Women's Directorate. *March 21, 1990.*
45. *Mr Rae* (York South)—Resolution—That, in the opinion of this House, recognizing that unequal opportunity for employment and promotion exists in the province of Ontario for women, members of visible minority groups, native persons and people with disabilities, and recognizing that voluntary

efforts to increase the representation of employable persons with such characteristics by employers have profoundly failed in both the private and public sectors of employment in Ontario, and recognizing that the only remedy to such an inequitable situation in Ontario is the introduction of a legislated mandatory employment equity program with enforceable goals and timetables, in both the private and public sectors, and with an emphasis on removing existing barriers to employment and promotion through the provision by government of such important and necessary services as job training, and child care, all parties in Ontario should join together to secure the enactment in the current legislative session of such employment equity legislation for Ontario. *March 22, 1990.*

PRIVATE MEMBERS' BUSINESS TO BE DEBATED

(Precedence in accordance with the Standing Order 94(d).)

Ballot Item Numbers 35 and 36. *Debated March 22, 1990.*

Ballot Item Number 37. *To be debated Thursday, March 29, 1990.*

Mrs Smith (London South)—Resolution—That, in the opinion of this House, since recent statistics continue to disclose that a sizeable portion of the women in our society are exposed to physical or sexual abuse, and that most studies would indicate that this behaviour pattern in men is often a result of childhood exposure to these same patterns of behaviour, the Government of Ontario, and in particular the Ministry of Education, should earmark specific funds to create programs (and material) delivered by respected male role models, to address and reverse these negative attitudes and that social programs provided for assisting male abusers be given consideration for inclusion in the funding programs of the Ministry of the Solicitor General and the Women's Directorate.

Ballot Item Number 38. *To be debated Thursday, March 29, 1990.*

Second Reading Bill 82, An Act to amend the Employment Standards Act.

NOTICES

GOVERNMENT MOTION

29. *Debated March 26, 1990.*
-

PRIVATE MEMBERS' MOTIONS

1. *Ms Bryden*—Resolution—That in the opinion of this House, recognizing that huge rent increases year after year are constituting a threat to the competitiveness and survival of retail business in commercial strips serving residential neighbourhoods, the Government of Ontario should introduce legislation as soon as possible to regulate the rents for such business establishments in order to provide those businesses with protection from gouging landlords comparable to the protection given to tenants of residential rental premises under the Residential Rent Regulation Act, 1986. *April 27, 1989.*
2. *Ms Bryden*—Resolution—That, in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a charter of rights for part-time workers should be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment. *April 27, 1989.*
8. *Mr Brandt*—Motion of Censure—That this House has lost confidence in the Minister of the Environment's capacity to exercise his responsibilities as a Minister of the Crown, specifically his duty under the *Environmental Protection Act* to insure the public's safety from toxic chemicals, as well as his duty under the *Freedom of Information and Protection of Privacy Act, 1987* to disclose information regarding a grave environmental, health or safety hazard to the public.

Therefore, this House:

- 1) urges the Minister of the Environment to resign; and
- 2) calls on the Premier of Ontario to appoint a public enquiry into his government's failure to insure that the public was fully informed with regard to the importation, sale, and use of toxic fuel and the government's mismanagement of this issue resulting in potential health and safety risks to the citizens of Ontario. *May 15, 1989.*
10. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that non-refundable tax credits for political contributions effectively disenfranchise those without taxable incomes from this aspect of the political process; and, acknowledging the unfair treatment the current system affords

lower-income Ontarians—many of whom are women, seniors, disabled, ethnic minorities, farmers and Native Canadians; legislation should be amended to provide for refundable tax credits to eliminate existing discrimination on the basis of income in the financing of Ontario political Parties and candidates. *May 17, 1989.*

23. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing the shortage of acute care beds which is in part due to the use of these beds by chronic care patients and recognizing the added cost to the system as a result of this misuse of acute care beds and recognizing the higher quality of life afforded to patients who can stay in their own homes and the added efficiency in the system as a result of home care; the government of Ontario should establish and maintain a system of community palliative care services which would allow people to be cared for in their own homes or in hospices where the atmosphere allows basic human dignity to be the top priority. *July 25, 1989.*
24. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing that Naturopathists have a body of knowledge on which the practice of naturopathy is based and recognizing the risk associated with an unlicensed person practicing naturopathy; the government of Ontario, recognizing the best interests of the public, should continue to legislate the regulation of Naturopathy. *July 25, 1989.*
28. *Mr Cousens*—Resolution—That in the opinion of this House, recognizing that all sittings of the District and Provincial Courts within the Judicial District of York Region take place in Newmarket; and that considerable time, expense and inconvenience is incurred by residents of the Town of Markham and South York Region since numerous matters are heard in Provincial Offences Court on an ongoing basis; the Attorney General should take immediate steps to have a regular sitting of the Provincial Offences Court and the Provincial Court (Criminal Division) at a location in the Town of Markham. *October 16, 1989.*
35. *Mr Runciman*—Resolution—That, in the opinion of this House, a Canadian-style Triple “E” Federal Senate (elected, regionally equal and effective) should be created and in the event that such a Senate is not implemented by Constitutional Agreement, the Government of Ontario should hold elections, in conjunction with the 1991 Municipal Elections, to choose people to fill present and future Ontario vacancies in the Senate. *November 27, 1989.*
37. *Mr McGuigan*—Resolution—That in the opinion of this House, the Standing Committee on Social Development should be asked to review the current state of regulations relating to required and recommended vaccinations of children in the Province of Ontario and in particular, in conjunction with vaccine-injuries in Ontario, the Committee should consider and recommend:

— an effective means of information about the benefits and risks of immunization and about known contra-indications;

- an effective method of parental instruction about how to deal with reactions, should they occur;
- an effective reporting system of adverse reactions in order to reduce the likelihood that children will receive contra-indicated inoculations;
- a general assurance that recipients of government sponsored immunizations, who experienced a serious adverse reaction, will be provided with compensation without the need to establish liability based on the elusive tort theory. *December 20, 1989.*

39. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing the need to protect and enhance the environment; the Government of Ontario should not offer any grants or loans for private sector projects not utilizing the best available environmental technology, and further, grant and loan criteria—specifically the Premier's Technology fund—should be amended by the Government of Ontario to give priority to projects developing environmental technology. *March 19, 1990.*
40. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that everyone has the right to life, liberty and security of the person, and the right not to be deprived thereof except in accordance with the principles of fundamental justice; the Government of Ontario should petition the Government of Canada to add the fundamental right of enjoyment of property to the Canadian Charter of Rights. *March 19, 1990.*
41. *Mrs Marland*—Resolution—That, in the opinion of this House, recognizing that the Province of Ontario has imposed a special tax of \$5 (plus a 40-cent retail sales tax) on every new tire sold in Ontario, and recognizing that used tires take up much needed space in existing landfill sites, the government should establish used tire depots in various regions of Ontario where used tires would be collected and shredded for recycling, and further that the cost of developing and operating these sites be paid for from the revenues collected from the above-noted taxes. *March 19, 1990.*
42. *Mr Mackenzie*—Resolution—That, in the opinion of this House, recognizing the current Regulations covering hygiene on construction sites are outdated and in need of amendment; that requirements for the provision of toilet and washroom facilities should be fully reflected in the Regulations of the Occupational Health and Safety Act (Sections 89/90); and that the requirements should be both practical and workable, result in the improvement of jobsite working conditions, and hence improve productivity on construction jobsites in the province. 1. The owner/constructor/project manager shall provide toilet and washing facilities on all construction sites in accordance with the following: a) where there are 15 or more workers on a project for a minimum period of one month the facilities shall include one flush (non-chemical) toilet and one urinal and one basin; and b) for each additional 30 workers or part thereof, an additional flush toilet, urinal and wash basin shall be added to facilities. 2. The costs borne by the owner/constructor/project manager in meeting the responsibilities of sections 89 & 90 cannot be transferred to other subcontractors/forces on the project. 3. The owner/constructor/project manager shall have the option of providing

the necessary facilities via access to facilities existing or adjacent to the worksite; via temporary fixed facilities constructed on the site; or via mobile units; conditional on site services being available. 4. On high-rise projects, the necessary facilities shall be made available on every fourth floor. 5. The toilet facilities provided shall be equipped as follows: a) within easy access of work sites, b) built so that the occupant is shielded from view, and protected from weather and falling objects. c) provided with natural or artificial lighting. d) provided with sufficient toilet paper and disinfectant. e) kept in a clean and sanitary condition. f) supplied with toilet seats and covers. g) heated to a minimum of 18 degrees C. h) suitably ventilated. 6. Basins provided shall have as a minimum standard a) hot and cold running water. b) soap or hand cleaner. c) hand towels. 90 1.a). Where WHMIS-class products are present on the jobsite, washing facilities meeting the requirements of the applicable material safety data sheets shall be provided. b). If showers (with the exception of safety showers) are required, they shall have as a minimum standard a) hot and cold running water. b) soap or hand cleaner. c) paper towels or individual hand towels. *March 21, 1990.*

43. *Ms Oddie Munro*—Resolution—That, in the opinion of this House, recognizing that the current practice of the construction industry regarding the provision of sanitary and toilet facilities for construction workers is outdated, the Ministry of Labour should make appropriate amendments to Regulation 691 of R.R.O. 1980 under the *Occupational Health and Safety Act* to upgrade the minimum requirements for sanitary and toilet facilities on construction sites, and in particular should amend the regulations to require employers to provide flush toilets and hand-washing facilities (including soap and running water) at all construction sites and to provide separate facilities for each sex at sites where male and female workers are present. *March 21, 1990.*
44. *Mrs Smith (London South)*—Resolution—That, in the opinion of this House, since recent statistics continue to disclose that a sizeable portion of the women in our society are exposed to physical or sexual abuse, and that most studies would indicate that this behaviour pattern in men is often a result of childhood exposure to these same patterns of behaviour, the Government of Ontario, and in particular the Ministry of Education, should earmark specific funds to create programs (and material) delivered by respected male role models, to address and reverse these negative attitudes and that social programs provided for assisting male abusers be given consideration for inclusion in the funding programs of the Ministry of the Solicitor General and the Women's Directorate. *March 21, 1990.*
45. *Mr Rae (York South)*—Resolution—That, in the opinion of this House, recognizing that unequal opportunity for employment and promotion exists in the province of Ontario for women, members of visible minority groups, native persons and people with disabilities, and recognizing that voluntary efforts to increase the representation of employable persons with such characteristics by employers have profoundly failed in both the private and public sectors of employment in Ontario, and recognizing that the only remedy to such an inequitable situation in Ontario is the introduction of a legislated mandatory employment equity program with enforceable goals

and timetables, in both the private and public sectors, and with an emphasis on removing existing barriers to employment and promotion through the provision by government of such important and necessary services as job training, and child care, all parties in Ontario should join together to secure the enactment in the current legislative session of such employment equity legislation for Ontario. *March 22, 1990.*

NOTICES

GOVERNMENT MOTION

29. *Debated March 26 & 27, 1990.*
-

PRIVATE MEMBERS' MOTIONS

1. *Ms Bryden*—Resolution—That in the opinion of this House, recognizing that huge rent increases year after year are constituting a threat to the competitiveness and survival of retail business in commercial strips serving residential neighbourhoods, the Government of Ontario should introduce legislation as soon as possible to regulate the rents for such business establishments in order to provide those businesses with protection from gouging landlords comparable to the protection given to tenants of residential rental premises under the Residential Rent Regulation Act, 1986. *April 27, 1989.*
2. *Ms Bryden*—Resolution—That, in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a charter of rights for part-time workers should be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment. *April 27, 1989.*
8. *Mr Brandt*—Motion of Censure—That this House has lost confidence in the Minister of the Environment's capacity to exercise his responsibilities as a Minister of the Crown, specifically his duty under the *Environmental Protection Act* to insure the public's safety from toxic chemicals, as well as his duty under the *Freedom of Information and Protection of Privacy Act, 1987* to disclose information regarding a grave environmental, health or safety hazard to the public.

Therefore, this House:

- 1) urges the Minister of the Environment to resign; and
 - 2) calls on the Premier of Ontario to appoint a public enquiry into his government's failure to insure that the public was fully informed with regard to the importation, sale, and use of toxic fuel and the government's mismanagement of this issue resulting in potential health and safety risks to the citizens of Ontario. *May 15, 1989.*
10. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that non-refundable tax credits for political contributions effectively disenfranchise those without taxable incomes from this aspect of the political process; and, acknowledging the unfair treatment the current system affords

lower-income Ontarians—many of whom are women, seniors, disabled, ethnic minorities, farmers and Native Canadians; legislation should be amended to provide for refundable tax credits to eliminate existing discrimination on the basis of income in the financing of Ontario political Parties and candidates. *May 17, 1989.*

23. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing the shortage of acute care beds which is in part due to the use of these beds by chronic care patients and recognizing the added cost to the system as a result of this misuse of acute care beds and recognizing the higher quality of life afforded to patients who can stay in their own homes and the added efficiency in the system as a result of home care; the government of Ontario should establish and maintain a system of community palliative care services which would allow people to be cared for in their own homes or in hospices where the atmosphere allows basic human dignity to be the top priority. *July 25, 1989.*
24. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing that Naturopathists have a body of knowledge on which the practice of naturopathy is based and recognizing the risk associated with an unlicensed person practicing naturopathy; the government of Ontario, recognizing the best interests of the public, should continue to legislate the regulation of Naturopathy. *July 25, 1989.*
28. *Mr Cousens*—Resolution—That in the opinion of this House, recognizing that all sittings of the District and Provincial Courts within the Judicial District of York Region take place in Newmarket; and that considerable time, expense and inconvenience is incurred by residents of the Town of Markham and South York Region since numerous matters are heard in Provincial Offences Court on an ongoing basis; the Attorney General should take immediate steps to have a regular sitting of the Provincial Offences Court and the Provincial Court (Criminal Division) at a location in the Town of Markham. *October 16, 1989.*
35. *Mr Runciman*—Resolution—That, in the opinion of this House, a Canadian-style Triple “E” Federal Senate (elected, regionally equal and effective) should be created and in the event that such a Senate is not implemented by Constitutional Agreement, the Government of Ontario should hold elections, in conjunction with the 1991 Municipal Elections, to choose people to fill present and future Ontario vacancies in the Senate. *November 27, 1989.*
37. *Mr McGuigan*—Resolution—That in the opinion of this House, the Standing Committee on Social Development should be asked to review the current state of regulations relating to required and recommended vaccinations of children in the Province of Ontario and in particular, in conjunction with vaccine-injuries in Ontario, the Committee should consider and recommend:

— an effective means of information about the benefits and risks of immunization and about known contra-indications;

- an effective method of parental instruction about how to deal with reactions, should they occur;
- an effective reporting system of adverse reactions in order to reduce the likelihood that children will receive contra-indicated inoculations;
- a general assurance that recipients of government sponsored immunizations, who experienced a serious adverse reaction, will be provided with compensation without the need to establish liability based on the elusive tort theory. *December 20, 1989.*

39. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing the need to protect and enhance the environment; the Government of Ontario should not offer any grants or loans for private sector projects not utilizing the best available environmental technology, and further, grant and loan criteria—specifically the Premier's Technology fund—should be amended by the Government of Ontario to give priority to projects developing environmental technology. *March 19, 1990.*
40. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that everyone has the right to life, liberty and security of the person, and the right not to be deprived thereof except in accordance with the principles of fundamental justice; the Government of Ontario should petition the Government of Canada to add the fundamental right of enjoyment of property to the Canadian Charter of Rights. *March 19, 1990.*
41. *Mrs Marland*—Resolution—That, in the opinion of this House, recognizing that the Province of Ontario has imposed a special tax of \$5 (plus a 40-cent retail sales tax) on every new tire sold in Ontario, and recognizing that used tires take up much needed space in existing landfill sites, the government should establish used tire depots in various regions of Ontario where used tires would be collected and shredded for recycling, and further that the cost of developing and operating these sites be paid for from the revenues collected from the above-noted taxes. *March 19, 1990.*
42. *Mr Mackenzie*—Resolution—That, in the opinion of this House, recognizing the current Regulations covering hygiene on construction sites are outdated and in need of amendment; that requirements for the provision of toilet and washroom facilities should be fully reflected in the Regulations of the Occupational Health and Safety Act (Sections 89/90); and that the requirements should be both practical and workable, result in the improvement of jobsite working conditions, and hence improve productivity on construction jobsites in the province. 1. The owner/constructor/project manager shall provide toilet and washing facilities on all construction sites in accordance with the following: a) where there are 15 or more workers on a project for a minimum period of one month the facilities shall include one flush (non-chemical) toilet and one urinal and one basin; and b) for each additional 30 workers or part thereof, an additional flush toilet, urinal and wash basin shall be added to facilities. 2. The costs borne by the owner/constructor/project manager in meeting the responsibilities of sections 89 & 90 cannot be transferred to other subcontractors/forces on the project. 3. The owner/constructor/project manager shall have the option of providing

the necessary facilities via access to facilities existing or adjacent to the worksite; via temporary fixed facilities constructed on the site; or via mobile units; conditional on site services being available. 4. On high-rise projects, the necessary facilities shall be made available on every fourth floor. 5. The toilet facilities provided shall be equipped as follows: a) within easy access of work sites, b) built so that the occupant is shielded from view, and protected from weather and falling objects. c) provided with natural or artificial lighting. d) provided with sufficient toilet paper and disinfectant. e) kept in a clean and sanitary condition. f) supplied with toilet seats and covers. g) heated to a minimum of 18 degrees C. h) suitably ventilated. 6. Basins provided shall have as a minimum standard a) hot and cold running water. b) soap or hand cleaner. c) hand towels. 90 1.a). Where WHMIS-class products are present on the jobsite, washing facilities meeting the requirements of the applicable material safety data sheets shall be provided. b). If showers (with the exception of safety showers) are required, they shall have as a minimum standard a) hot and cold running water. b) soap or hand cleaner. c) paper towels or individual hand towels. *March 21, 1990.*

43. *Ms Oddie Munro*—Resolution—That, in the opinion of this House, recognizing that the current practice of the construction industry regarding the provision of sanitary and toilet facilities for construction workers is outdated, the Ministry of Labour should make appropriate amendments to Regulation 691 of R.R.O. 1980 under the *Occupational Health and Safety Act* to upgrade the minimum requirements for sanitary and toilet facilities on construction sites, and in particular should amend the regulations to require employers to provide flush toilets and hand-washing facilities (including soap and running water) at all construction sites and to provide separate facilities for each sex at sites where male and female workers are present. *March 21, 1990.*
44. *Mrs Smith* (London South)—Resolution—That, in the opinion of this House, since recent statistics continue to disclose that a sizeable portion of the women in our society are exposed to physical or sexual abuse, and that most studies would indicate that this behaviour pattern in men is often a result of childhood exposure to these same patterns of behaviour, the Government of Ontario, and in particular the Ministry of Education, should earmark specific funds to create programs (and material) delivered by respected male role models, to address and reverse these negative attitudes and that social programs provided for assisting male abusers be given consideration for inclusion in the funding programs of the Ministry of the Solicitor General and the Women's Directorate. *March 21, 1990.*
45. *Mr Rae* (York South)—Resolution—That, in the opinion of this House, recognizing that unequal opportunity for employment and promotion exists in the province of Ontario for women, members of visible minority groups, native persons and people with disabilities, and recognizing that voluntary efforts to increase the representation of employable persons with such characteristics by employers have profoundly failed in both the private and public sectors of employment in Ontario, and recognizing that the only remedy to such an inequitable situation in Ontario is the introduction of a legislated mandatory employment equity program with enforceable goals

and timetables, in both the private and public sectors, and with an emphasis on removing existing barriers to employment and promotion through the provision by government of such important and necessary services as job training, and child care, all parties in Ontario should join together to secure the enactment in the current legislative session of such employment equity legislation for Ontario. *March 22, 1990.*

46. *Mr Wildman*—Resolution—That, in the opinion of this House, recognizing that difficult financial and trade pressures threaten the viability of Ontario agriculture in 1990 and recognizing that the provincial government must make a significant financial commitment to the preservation, expansion and prosperity of family farming in Ontario in the forthcoming spring Budget and recognizing that farmers economic success in the 1990's will largely depend upon their ability to access and manage required capital resources and recognizing that Ontario farmers experiencing financial hardship would benefit from provincial government financial guarantees designed to encourage lending institutions to engage in mediation rather than foreclosures the Ontario government should re-introduce, this year, a program of interest rate assistance (similar to the OFFIRR program) with sufficient funding and of adequate duration to bring about meaningful farm interest rate reduction in this province and, further, that the Ontario government should enact legislation similar to Manitoba's *Family Farm Protection Act* to assist farmers facing foreclosures by enabling them to renegotiate manageable credit terms. *March 28, 1990.*

NOTICES

GOVERNMENT MOTION

30. *Mr Ward*—Resolution—That, notwithstanding any Standing Order or Special Order of the House, in relation to Bill 68, An Act to amend certain Acts respecting Insurance, 2 Sessional days shall be allotted to consideration of the bill in the Committee of the Whole House. All amendments proposed to be moved to the bill shall be filed with the Clerk of the Assembly by 5.00 p.m. on the first Sessional day on which the bill is considered in the Committee of the Whole House. At 5.45 p.m. on the second of these Sessional days, those amendments which have not yet been moved shall be deemed to have been moved and the Chair of the Committee of the Whole House shall interrupt the proceedings and shall, without further debate or amendment, put every question necessary to dispose of all remaining sections of the bill and any amendments thereto and report the bill to the House. Upon receiving the report of the Committee of the Whole House, the Speaker shall put the question for the adoption of the report forthwith, which question shall be decided without amendment or debate.

That one further Sessional day shall be allotted to the third reading stage of the bill. At 5.45 p.m. on such day, the Speaker shall interrupt the proceedings and shall put every question necessary to dispose of this stage of the bill without further amendment or debate.

That in the case of any division relating to any proceedings on the bill, the division bell shall be limited to 5 minutes. *March 29, 1990.*

PRIVATE MEMBERS' MOTIONS

1. *Ms Bryden*—Resolution—That in the opinion of this House, recognizing that huge rent increases year after year are constituting a threat to the competitiveness and survival of retail business in commercial strips serving residential neighbourhoods, the Government of Ontario should introduce legislation as soon as possible to regulate the rents for such business establishments in order to provide those businesses with protection from gouging landlords comparable to the protection given to tenants of residential rental premises under the Residential Rent Regulation Act, 1986. *April 27, 1989.*
2. *Ms Bryden*—Resolution—That, in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a charter of rights for part-time workers should be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment. *April 27, 1989.*

8. *Mr Brandt*—Motion of Censure—That this House has lost confidence in the Minister of the Environment's capacity to exercise his responsibilities as a Minister of the Crown, specifically his duty under the *Environmental Protection Act* to insure the public's safety from toxic chemicals, as well as his duty under the *Freedom of Information and Protection of Privacy Act, 1987* to disclose information regarding a grave environmental, health or safety hazard to the public.

Therefore, this House:

- 1) urges the Minister of the Environment to resign; and
 - 2) calls on the Premier of Ontario to appoint a public enquiry into his government's failure to insure that the public was fully informed with regard to the importation, sale, and use of toxic fuel and the government's mismanagement of this issue resulting in potential health and safety risks to the citizens of Ontario. *May 15, 1989.*
10. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that non-refundable tax credits for political contributions effectively disenfranchise those without taxable incomes from this aspect of the political process; and, acknowledging the unfair treatment the current system affords lower-income Ontarians—many of whom are women, seniors, disabled, ethnic minorities, farmers and Native Canadians; legislation should be amended to provide for refundable tax credits to eliminate existing discrimination on the basis of income in the financing of Ontario political Parties and candidates. *May 17, 1989.*
23. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing the shortage of acute care beds which is in part due to the use of these beds by chronic care patients and recognizing the added cost to the system as a result of this misuse of acute care beds and recognizing the higher quality of life afforded to patients who can stay in their own homes and the added efficiency in the system as a result of home care; the government of Ontario should establish and maintain a system of community palliative care services which would allow people to be cared for in their own homes or in hospices where the atmosphere allows basic human dignity to be the top priority. *July 25, 1989.*
24. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing that Naturopathists have a body of knowledge on which the practice of naturopathy is based and recognizing the risk associated with an unlicensed person practicing naturopathy; the government of Ontario, recognizing the best interests of the public, should continue to legislate the regulation of Naturopathy. *July 25, 1989.*
28. *Mr Cousens*—Resolution—That in the opinion of this House, recognizing that all sittings of the District and Provincial Courts within the Judicial District of York Region take place in Newmarket; and that considerable time, expense and inconvenience is incurred by residents of the Town of Markham and South York Region since numerous matters are heard in Provincial Offences Court on an ongoing basis; the Attorney General

should take immediate steps to have a regular sitting of the Provincial Offences Court and the Provincial Court (Criminal Division) at a location in the Town of Markham. *October 16, 1989.*

35. *Mr Runciman*—Resolution—That, in the opinion of this House, a Canadian-style Triple “E” Federal Senate (elected, regionally equal and effective) should be created and in the event that such a Senate is not implemented by Constitutional Agreement, the Government of Ontario should hold elections, in conjunction with the 1991 Municipal Elections, to choose people to fill present and future Ontario vacancies in the Senate. *November 27, 1989.*
37. *Mr McGuigan*—Resolution—That in the opinion of this House, the Standing Committee on Social Development should be asked to review the current state of regulations relating to required and recommended vaccinations of children in the Province of Ontario and in particular, in conjunction with vaccine-injuries in Ontario, the Committee should consider and recommend:
 - an effective means of information about the benefits and risks of immunization and about known contra-indications;
 - an effective method of parental instruction about how to deal with reactions, should they occur;
 - an effective reporting system of adverse reactions in order to reduce the likelihood that children will receive contra-indicated inoculations;
 - a general assurance that recipients of government sponsored immunizations, who experienced a serious adverse reaction, will be provided with compensation without the need to establish liability based on the elusive tort theory. *December 20, 1989.*
39. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing the need to protect and enhance the environment; the Government of Ontario should not offer any grants or loans for private sector projects not utilizing the best available environmental technology, and further, grant and loan criteria—specifically the Premier’s Technology fund—should be amended by the Government of Ontario to give priority to projects developing environmental technology. *March 19, 1990.*
40. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that everyone has the right to life, liberty and security of the person, and the right not to be deprived thereof except in accordance with the principles of fundamental justice; the Government of Ontario should petition the Government of Canada to add the fundamental right of enjoyment of property to the Canadian Charter of Rights. *March 19, 1990.*
41. *Mrs Marland*—Resolution—That, in the opinion of this House, recognizing that the Province of Ontario has imposed a special tax of \$5 (plus a 40-cent retail sales tax) on every new tire sold in Ontario, and recognizing that used tires take up much needed space in existing landfill sites, the government

should establish used tire depots in various regions of Ontario where used tires would be collected and shredded for recycling, and further that the cost of developing and operating these sites be paid for from the revenues collected from the above-noted taxes. *March 19, 1990.*

42. *Mr Mackenzie*—Resolution—That, in the opinion of this House, recognizing the current Regulations covering hygiene on construction sites are outdated and in need of amendment; that requirements for the provision of toilet and washroom facilities should be fully reflected in the Regulations of the Occupational Health and Safety Act (Sections 89/90); and that the requirements should be both practical and workable, result in the improvement of jobsite working conditions, and hence improve productivity on construction jobsites in the province. 1. The owner/constructor/project manager shall provide toilet and washing facilities on all construction sites in accordance with the following: a) where there are 15 or more workers on a project for a minimum period of one month the facilities shall include one flush (non-chemical) toilet and one urinal and one basin; and b) for each additional 30 workers or part thereof, an additional flush toilet, urinal and wash basin shall be added to facilities. 2. The costs borne by the owner/constructor/project manager in meeting the responsibilities of sections 89 & 90 cannot be transferred to other subcontractors/forces on the project. 3. The owner/constructor/project manager shall have the option of providing the necessary facilities via access to facilities existing or adjacent to the worksite; via temporary fixed facilities constructed on the site; or via mobile units; conditional on site services being available. 4. On high-rise projects, the necessary facilities shall be made available on every fourth floor. 5. The toilet facilities provided shall be equipped as follows: a) within easy access of work sites, b) built so that the occupant is shielded from view, and protected from weather and falling objects. c) provided with natural or artificial lighting. d) provided with sufficient toilet paper and disinfectant. e) kept in a clean and sanitary condition. f) supplied with toilet seats and covers. g) heated to a minimum of 18 degrees C. h) suitably ventilated. 6. Basins provided shall have as a minimum standard a) hot and cold running water. b) soap or hand cleaner. c) hand towels. 90 1.a). Where WHMIS-class products are present on the jobsite, washing facilities meeting the requirements of the applicable material safety data sheets shall be provided. b). If showers (with the exception of safety showers) are required, they shall have as a minimum standard a) hot and cold running water. b) soap or hand cleaner. c) paper towels or individual hand towels. *March 21, 1990.*

43. *Ms Oddie Munro*—Resolution—That, in the opinion of this House, recognizing that the current practice of the construction industry regarding the provision of sanitary and toilet facilities for construction workers is outdated, the Ministry of Labour should make appropriate amendments to Regulation 691 of R.R.O. 1980 under the *Occupational Health and Safety Act* to upgrade the minimum requirements for sanitary and toilet facilities on construction sites, and in particular should amend the regulations to require employers to provide flush toilets and hand-washing facilities (including soap and running water) at all construction sites and to provide separate facilities for each sex at sites where male and female workers are present. *March 21, 1990.*

44. *Debated March 29, 1990.*
 45. *Mr Rae* (York South)—Resolution—That, in the opinion of this House, recognizing that unequal opportunity for employment and promotion exists in the province of Ontario for women, members of visible minority groups, native persons and people with disabilities, and recognizing that voluntary efforts to increase the representation of employable persons with such characteristics by employers have profoundly failed in both the private and public sectors of employment in Ontario, and recognizing that the only remedy to such an inequitable situation in Ontario is the introduction of a legislated mandatory employment equity program with enforceable goals and timetables, in both the private and public sectors, and with an emphasis on removing existing barriers to employment and promotion through the provision by government of such important and necessary services as job training, and child care, all parties in Ontario should join together to secure the enactment in the current legislative session of such employment equity legislation for Ontario. *March 22, 1990.*
 46. *Mr Wildman*—Resolution—That, in the opinion of this House, recognizing that difficult financial and trade pressures threaten the viability of Ontario agriculture in 1990 and recognizing that the provincial government must make a significant financial commitment to the preservation, expansion and prosperity of family farming in Ontario in the forthcoming spring Budget and recognizing that farmers economic success in the 1990's will largely depend upon their ability to access and manage required capital resources and recognizing that Ontario farmers experiencing financial hardship would benefit from provincial government financial guarantees designed to encourage lending institutions to engage in mediation rather than foreclosures the Ontario government should re-introduce, this year, a program of interest rate assistance (similar to the OFFIRR program) with sufficient funding and of adequate duration to bring about meaningful farm interest rate reduction in this province and, further, that the Ontario government should enact legislation similar to Manitoba's *Family Farm Protection Act* to assist farmers facing foreclosures by enabling them to renegotiate manageable credit terms. *March 28, 1990.*

SPECIAL DEBATES

OPPOSITION DAYS

1. *Mr Brandt*—Opposition Day—That, in the opinion of this House, while reaffirming its support for the provision of French language services where numbers warrant, while confirming that the *French Language Services Act, 1986* was not intended to apply to municipalities, recognizes the elevated tensions and misunderstandings which have developed over language issues throughout this Province, and therefore calls upon the Government of Ontario to establish, as soon as possible, an all-Party Committee of the Legislature to travel across the Province to receive public input on the administrative guidelines, regulations, and implementation of the *French Language Services Act, 1986* (Bill 8). *To be debated today*—Government House Leader.

M. Brandt—jour réservé à l'opposition—Que, de l'avis de cette Chambre, l'Assemblée législative réaffirme son appui à la prestation des services en français là où le nombre le justifie et confirme que la *Loi de 1986 sur les services en français* ne vise pas les municipalités. Elle reconnaît, par contre, que la question de la langue est à la source de graves tensions et malentendus dans notre province. Par conséquent, l'Assemblée législative demande au gouvernement de l'Ontario de former dans les plus brefs délais un comité mixte de l'Assemblée législative pour sonder l'opinion publique à l'échelle de la province au sujet des directives administratives, des règlements et de l'application de la *Loi de 1986 sur les services en français* (projet de loi 8). *Le d'ébat se tiendra aujourd'hui*—Leader parlementaire du gouvernement.

Mr Jackson.

Ballot Item Number 40. *To be debated Thursday, April 5, 1990.*

Second Reading Bill 115, An Act to amend the Representation Act, 1986.
Mr MacDonald.

Ballot Item Number 41. *To be debated Thursday, April 12, 1990.*

Mr Wildman—Resolution—That, in the opinion of this House, recognizing that difficult financial and trade pressures threaten the viability of Ontario agriculture in 1990 and recognizing that the provincial government must make a significant financial commitment to the preservation, expansion and prosperity of family farming in Ontario in the forthcoming spring Budget and recognizing that farmers economic success in the 1990's will largely depend upon their ability to access and manage required capital resources and recognizing that Ontario farmers experiencing financial hardship would benefit from provincial government financial guarantees designed to encourage lending institutions to engage in mediation rather than foreclosures the Ontario government should re-introduce, this year, a program of interest rate assistance (similar to the OFFIRR program) with sufficient funding and of adequate duration to bring about meaningful farm interest rate reduction in this province and, further, that the Ontario government should enact legislation similar to Manitoba's *Family Farm Protection Act* to assist farmers facing foreclosures by enabling them to renegotiate manageable credit terms.

NOTICES

GOVERNMENT MOTION

30. *Mr Ward*—Resolution—That, notwithstanding any Standing Order or Special Order of the House, in relation to Bill 68, An Act to amend certain Acts respecting Insurance, 2 Sessional days shall be allotted to consideration of the bill in the Committee of the Whole House. All amendments proposed to be moved to the bill shall be filed with the Clerk of the Assembly by 5.00 p.m. on the first Sessional day on which the bill is considered in the Committee of the Whole House. At 5.45 p.m. on the second of these Sessional days, those amendments which have not yet been moved shall be deemed to have been moved and the Chair of the Committee of the Whole House shall interrupt the proceedings and shall, without further debate or amendment, put every question necessary to dispose of all remaining sections of the bill and any amendments thereto and report the bill to the House. Upon receiving the report of the Committee of the Whole House, the Speaker shall put the question for the adoption of the report forthwith, which question shall be decided without amendment or debate.

That one further Sessional day shall be allotted to the third reading stage of the bill. At 5.45 p.m. on such day, the Speaker shall interrupt the proceedings and shall put every question necessary to dispose of this stage of the bill without further amendment or debate.

That in the case of any division relating to any proceedings on the bill, the division bell shall be limited to 5 minutes. *March 29, 1990.*

PRIVATE MEMBERS' MOTIONS

1. *Ms Bryden*—Resolution—That in the opinion of this House, recognizing that huge rent increases year after year are constituting a threat to the competitiveness and survival of retail business in commercial strips serving residential neighbourhoods, the Government of Ontario should introduce legislation as soon as possible to regulate the rents for such business establishments in order to provide those businesses with protection from gouging landlords comparable to the protection given to tenants of residential rental premises under the Residential Rent Regulation Act, 1986. *April 27, 1989.*
2. *Ms Bryden*—Resolution—That, in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a charter of rights for part-time workers should be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment. *April 27, 1989.*

8. *Mr Brandt*—Motion of Censure—That this House has lost confidence in the Minister of the Environment's capacity to exercise his responsibilities as a Minister of the Crown, specifically his duty under the *Environmental Protection Act* to insure the public's safety from toxic chemicals, as well as his duty under the *Freedom of Information and Protection of Privacy Act, 1987* to disclose information regarding a grave environmental, health or safety hazard to the public.

Therefore, this House:

- 1) urges the Minister of the Environment to resign; and
 - 2) calls on the Premier of Ontario to appoint a public enquiry into his government's failure to insure that the public was fully informed with regard to the importation, sale, and use of toxic fuel and the government's mismanagement of this issue resulting in potential health and safety risks to the citizens of Ontario. *May 15, 1989.*
10. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that non-refundable tax credits for political contributions effectively disenfranchise those without taxable incomes from this aspect of the political process; and, acknowledging the unfair treatment the current system affords lower-income Ontarians—many of whom are women, seniors, disabled, ethnic minorities, farmers and Native Canadians; legislation should be amended to provide for refundable tax credits to eliminate existing discrimination on the basis of income in the financing of Ontario political Parties and candidates. *May 17, 1989.*
23. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing the shortage of acute care beds which is in part due to the use of these beds by chronic care patients and recognizing the added cost to the system as a result of this misuse of acute care beds and recognizing the higher quality of life afforded to patients who can stay in their own homes and the added efficiency in the system as a result of home care; the government of Ontario should establish and maintain a system of community palliative care services which would allow people to be cared for in their own homes or in hospices where the atmosphere allows basic human dignity to be the top priority. *July 25, 1989.*
24. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing that Naturopathists have a body of knowledge on which the practice of naturopathy is based and recognizing the risk associated with an unlicensed person practicing naturopathy; the government of Ontario, recognizing the best interests of the public, should continue to legislate the regulation of Naturopathy. *July 25, 1989.*
28. *Mr Cousens*—Resolution—That in the opinion of this House, recognizing that all sittings of the District and Provincial Courts within the Judicial District of York Region take place in Newmarket; and that considerable time, expense and inconvenience is incurred by residents of the Town of Markham and South York Region since numerous matters are heard in Provincial Offences Court on an ongoing basis; the Attorney General

should take immediate steps to have a regular sitting of the Provincial Offences Court and the Provincial Court (Criminal Division) at a location in the Town of Markham. *October 16, 1989.*

35. *Mr Runciman*—Resolution—That, in the opinion of this House, a Canadian-style Triple “E” Federal Senate (elected, regionally equal and effective) should be created and in the event that such a Senate is not implemented by Constitutional Agreement, the Government of Ontario should hold elections, in conjunction with the 1991 Municipal Elections, to choose people to fill present and future Ontario vacancies in the Senate. *November 27, 1989.*
37. *Mr McGuigan*—Resolution—That in the opinion of this House, the Standing Committee on Social Development should be asked to review the current state of regulations relating to required and recommended vaccinations of children in the Province of Ontario and in particular, in conjunction with vaccine-injuries in Ontario, the Committee should consider and recommend:
 - an effective means of information about the benefits and risks of immunization and about known contra-indications;
 - an effective method of parental instruction about how to deal with reactions, should they occur;
 - an effective reporting system of adverse reactions in order to reduce the likelihood that children will receive contra-indicated inoculations;
 - a general assurance that recipients of government sponsored immunizations, who experienced a serious adverse reaction, will be provided with compensation without the need to establish liability based on the elusive tort theory. *December 20, 1989.*
39. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing the need to protect and enhance the environment; the Government of Ontario should not offer any grants or loans for private sector projects not utilizing the best available environmental technology, and further, grant and loan criteria—specifically the Premier’s Technology fund—should be amended by the Government of Ontario to give priority to projects developing environmental technology. *March 19, 1990.*
40. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that everyone has the right to life, liberty and security of the person, and the right not to be deprived thereof except in accordance with the principles of fundamental justice; the Government of Ontario should petition the Government of Canada to add the fundamental right of enjoyment of property to the Canadian Charter of Rights. *March 19, 1990.*
41. *Mrs Marland*—Resolution—That, in the opinion of this House, recognizing that the Province of Ontario has imposed a special tax of \$5 (plus a 40-cent retail sales tax) on every new tire sold in Ontario, and recognizing that used tires take up much needed space in existing landfill sites, the government

should establish used tire depots in various regions of Ontario where used tires would be collected and shredded for recycling, and further that the cost of developing and operating these sites be paid for from the revenues collected from the above-noted taxes. *March 19, 1990.*

42. *Mr Mackenzie—Resolution—*That, in the opinion of this House, recognizing the current Regulations covering hygiene on construction sites are outdated and in need of amendment; that requirements for the provision of toilet and washroom facilities should be fully reflected in the Regulations of the Occupational Health and Safety Act (Sections 89/90); and that the requirements should be both practical and workable, result in the improvement of jobsite working conditions, and hence improve productivity on construction jobsites in the province. 1. The owner/constructor/project manager shall provide toilet and washing facilities on all construction sites in accordance with the following: a) where there are 15 or more workers on a project for a minimum period of one month the facilities shall include one flush (non-chemical) toilet and one urinal and one basin; and b) for each additional 30 workers or part thereof, an additional flush toilet, urinal and wash basin shall be added to facilities. 2. The costs borne by the owner/constructor/project manager in meeting the responsibilities of sections 89 & 90 cannot be transferred to other subcontractors/forces on the project. 3. The owner/constructor/project manager shall have the option of providing the necessary facilities via access to facilities existing or adjacent to the worksite; via temporary fixed facilities constructed on the site; or via mobile units; conditional on site services being available. 4. On high-rise projects, the necessary facilities shall be made available on every fourth floor. 5. The toilet facilities provided shall be equipped as follows: a) within easy access of work sites, b) built so that the occupant is shielded from view, and protected from weather and falling objects. c) provided with natural or artificial lighting. d) provided with sufficient toilet paper and disinfectant. e) kept in a clean and sanitary condition. f) supplied with toilet seats and covers. g) heated to a minimum of 18 degrees C. h) suitably ventilated. 6. Basins provided shall have as a minimum standard a) hot and cold running water. b) soap or hand cleaner. c) hand towels. 90 1.a). Where WHMIS-class products are present on the jobsite, washing facilities meeting the requirements of the applicable material safety data sheets shall be provided. b). If showers (with the exception of safety showers) are required, they shall have as a minimum standard a) hot and cold running water. b) soap or hand cleaner. c) paper towels or individual hand towels. *March 21, 1990.*
43. *Ms Oddie Munro—Resolution—*That, in the opinion of this House, recognizing that the current practice of the construction industry regarding the provision of sanitary and toilet facilities for construction workers is outdated, the Ministry of Labour should make appropriate amendments to Regulation 691 of R.R.O. 1980 under the *Occupational Health and Safety Act* to upgrade the minimum requirements for sanitary and toilet facilities on construction sites, and in particular should amend the regulations to require employers to provide flush toilets and hand-washing facilities (including soap and running water) at all construction sites and to provide separate facilities for each sex at sites where male and female workers are present. *March 21, 1990.*

45. *Mr Rae (York South)*—Resolution—That, in the opinion of this House, recognizing that unequal opportunity for employment and promotion exists in the province of Ontario for women, members of visible minority groups, native persons and people with disabilities, and recognizing that voluntary efforts to increase the representation of employable persons with such characteristics by employers have profoundly failed in both the private and public sectors of employment in Ontario, and recognizing that the only remedy to such an inequitable situation in Ontario is the introduction of a legislated mandatory employment equity program with enforceable goals and timetables, in both the private and public sectors, and with an emphasis on removing existing barriers to employment and promotion through the provision by government of such important and necessary services as job training, and child care, all parties in Ontario should join together to secure the enactment in the current legislative session of such employment equity legislation for Ontario. *March 22, 1990.*
46. *Mr Wildman*—Resolution—That, in the opinion of this House, recognizing that difficult financial and trade pressures threaten the viability of Ontario agriculture in 1990 and recognizing that the provincial government must make a significant financial commitment to the preservation, expansion and prosperity of family farming in Ontario in the forthcoming spring Budget and recognizing that farmers economic success in the 1990's will largely depend upon their ability to access and manage required capital resources and recognizing that Ontario farmers experiencing financial hardship would benefit from provincial government financial guarantees designed to encourage lending institutions to engage in mediation rather than foreclosures the Ontario government should re-introduce, this year, a program of interest rate assistance (similar to the OFFIRR program) with sufficient funding and of adequate duration to bring about meaningful farm interest rate reduction in this province and, further, that the Ontario government should enact legislation similar to Manitoba's *Family Farm Protection Act* to assist farmers facing foreclosures by enabling them to renegotiate manageable credit terms. *March 28, 1990.*

GOVERNMENT MOTION

30. *Debated April 3, 1990.*
-

PRIVATE MEMBERS' MOTIONS

1. *Ms Bryden*—Resolution—That in the opinion of this House, recognizing that huge rent increases year after year are constituting a threat to the competitiveness and survival of retail business in commercial strips serving residential neighbourhoods, the Government of Ontario should introduce legislation as soon as possible to regulate the rents for such business establishments in order to provide those businesses with protection from gouging landlords comparable to the protection given to tenants of residential rental premises under the Residential Rent Regulation Act, 1986. *April 27, 1989.*
2. *Ms Bryden*—Resolution—That, in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a charter of rights for part-time workers should be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment. *April 27, 1989.*
8. *Mr Brandt*—Motion of Censure—That this House has lost confidence in the Minister of the Environment's capacity to exercise his responsibilities as a Minister of the Crown, specifically his duty under the *Environmental Protection Act* to insure the public's safety from toxic chemicals, as well as his duty under the *Freedom of Information and Protection of Privacy Act, 1987* to disclose information regarding a grave environmental, health or safety hazard to the public.

Therefore, this House:

- 1) urges the Minister of the Environment to resign; and
 - 2) calls on the Premier of Ontario to appoint a public enquiry into his government's failure to insure that the public was fully informed with regard to the importation, sale, and use of toxic fuel and the government's mismanagement of this issue resulting in potential health and safety risks to the citizens of Ontario. *May 15, 1989.*
10. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that non-refundable tax credits for political contributions effectively disenfranchise those without taxable incomes from this aspect of the political process; and, acknowledging the unfair treatment the current system affords

lower-income Ontarians—many of whom are women, seniors, disabled, ethnic minorities, farmers and Native Canadians; legislation should be amended to provide for refundable tax credits to eliminate existing discrimination on the basis of income in the financing of Ontario political Parties and candidates. *May 17, 1989.*

23. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing the shortage of acute care beds which is in part due to the use of these beds by chronic care patients and recognizing the added cost to the system as a result of this misuse of acute care beds and recognizing the higher quality of life afforded to patients who can stay in their own homes and the added efficiency in the system as a result of home care; the government of Ontario should establish and maintain a system of community palliative care services which would allow people to be cared for in their own homes or in hospices where the atmosphere allows basic human dignity to be the top priority. *July 25, 1989.*
24. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing that Naturopathists have a body of knowledge on which the practice of naturopathy is based and recognizing the risk associated with an unlicensed person practicing naturopathy; the government of Ontario, recognizing the best interests of the public, should continue to legislate the regulation of Naturopathy. *July 25, 1989.*
28. *Mr Cousens*—Resolution—That in the opinion of this House, recognizing that all sittings of the District and Provincial Courts within the Judicial District of York Region take place in Newmarket; and that considerable time, expense and inconvenience is incurred by residents of the Town of Markham and South York Region since numerous matters are heard in Provincial Offences Court on an ongoing basis; the Attorney General should take immediate steps to have a regular sitting of the Provincial Offences Court and the Provincial Court (Criminal Division) at a location in the Town of Markham. *October 16, 1989.*
35. *Mr Runciman*—Resolution—That, in the opinion of this House, a Canadian-style Triple “E” Federal Senate (elected, regionally equal and effective) should be created and in the event that such a Senate is not implemented by Constitutional Agreement, the Government of Ontario should hold elections, in conjunction with the 1991 Municipal Elections, to choose people to fill present and future Ontario vacancies in the Senate. *November 27, 1989.*
37. *Mr McGuigan*—Resolution—That in the opinion of this House, the Standing Committee on Social Development should be asked to review the current state of regulations relating to required and recommended vaccinations of children in the Province of Ontario and in particular, in conjunction with vaccine-injuries in Ontario, the Committee should consider and recommend:

— an effective means of information about the benefits and risks of immunization and about known contra-indications;

- an effective method of parental instruction about how to deal with reactions, should they occur;
 - an effective reporting system of adverse reactions in order to reduce the likelihood that children will receive contra-indicated inoculations;
 - a general assurance that recipients of government sponsored immunizations, who experienced a serious adverse reaction, will be provided with compensation without the need to establish liability based on the elusive tort theory. *December 20, 1989.*
39. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing the need to protect and enhance the environment; the Government of Ontario should not offer any grants or loans for private sector projects not utilizing the best available environmental technology, and further, grant and loan criteria—specifically the Premier’s Technology fund—should be amended by the Government of Ontario to give priority to projects developing environmental technology. *March 19, 1990.*
40. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that everyone has the right to life, liberty and security of the person, and the right not to be deprived thereof except in accordance with the principles of fundamental justice; the Government of Ontario should petition the Government of Canada to add the fundamental right of enjoyment of property to the Canadian Charter of Rights. *March 19, 1990.*
41. *Mrs Marland*—Resolution—That, in the opinion of this House, recognizing that the Province of Ontario has imposed a special tax of \$5 (plus a 40-cent retail sales tax) on every new tire sold in Ontario, and recognizing that used tires take up much needed space in existing landfill sites, the government should establish used tire depots in various regions of Ontario where used tires would be collected and shredded for recycling, and further that the cost of developing and operating these sites be paid for from the revenues collected from the above-noted taxes. *March 19, 1990.*
42. *Mr Mackenzie*—Resolution—That, in the opinion of this House, recognizing the current Regulations covering hygiene on construction sites are outdated and in need of amendment; that requirements for the provision of toilet and washroom facilities should be fully reflected in the Regulations of the Occupational Health and Safety Act (Sections 89/90); and that the requirements should be both practical and workable, result in the improvement of jobsite working conditions, and hence improve productivity on construction jobsites in the province. 1. The owner/constructor/project manager shall provide toilet and washing facilities on all construction sites in accordance with the following: a) where there are 15 or more workers on a project for a minimum period of one month the facilities shall include one flush (non-chemical) toilet and one urinal and one basin; and b) for each additional 30 workers or part thereof, an additional flush toilet, urinal and wash basin shall be added to facilities. 2. The costs borne by the owner/constructor/project manager in meeting the responsibilities of sections 89 & 90 cannot be transferred to other subcontractors/forces on the project. 3. The owner/constructor/project manager shall have the option of providing

the necessary facilities via access to facilities existing or adjacent to the worksite; via temporary fixed facilities constructed on the site; or via mobile units; conditional on site services being available. 4. On high-rise projects, the necessary facilities shall be made available on every fourth floor. 5. The toilet facilities provided shall be equipped as follows: a) within easy access of work sites, b) built so that the occupant is shielded from view, and protected from weather and falling objects, c) provided with natural or artificial lighting, d) provided with sufficient toilet paper and disinfectant, e) kept in a clean and sanitary condition, f) supplied with toilet seats and covers, g) heated to a minimum of 18 degrees C, h) suitably ventilated. 6. Basins provided shall have as a minimum standard a) hot and cold running water, b) soap or hand cleaner, c) hand towels. 90 1.a). Where WHMIS-class products are present on the jobsite, washing facilities meeting the requirements of the applicable material safety data sheets shall be provided. b). If showers (with the exception of safety showers) are required, they shall have as a minimum standard a) hot and cold running water, b) soap or hand cleaner, c) paper towels or individual hand towels. *March 21, 1990.*

43. *Ms Oddie Munro*—Resolution—That, in the opinion of this House, recognizing that the current practice of the construction industry regarding the provision of sanitary and toilet facilities for construction workers is outdated, the Ministry of Labour should make appropriate amendments to Regulation 691 of R.R.O. 1980 under the *Occupational Health and Safety Act* to upgrade the minimum requirements for sanitary and toilet facilities on construction sites, and in particular should amend the regulations to require employers to provide flush toilets and hand-washing facilities (including soap and running water) at all construction sites and to provide separate facilities for each sex at sites where male and female workers are present. *March 21, 1990.*
45. *Mr Rae* (York South)—Resolution—That, in the opinion of this House, recognizing that unequal opportunity for employment and promotion exists in the province of Ontario for women, members of visible minority groups, native persons and people with disabilities, and recognizing that voluntary efforts to increase the representation of employable persons with such characteristics by employers have profoundly failed in both the private and public sectors of employment in Ontario, and recognizing that the only remedy to such an inequitable situation in Ontario is the introduction of a legislated mandatory employment equity program with enforceable goals and timetables, in both the private and public sectors, and with an emphasis on removing existing barriers to employment and promotion through the provision by government of such important and necessary services as job training, and child care, all parties in Ontario should join together to secure the enactment in the current legislative session of such employment equity legislation for Ontario. *March 22, 1990.*
46. *Mr Wildman*—Resolution—That, in the opinion of this House, recognizing that difficult financial and trade pressures threaten the viability of Ontario agriculture in 1990 and recognizing that the provincial government must make a significant financial commitment to the preservation, expansion and prosperity of family farming in Ontario in the forthcoming spring Bud-

get and recognizing that farmers economic success in the 1990's will largely depend upon their ability to access and manage required capital resources and recognizing that Ontario farmers experiencing financial hardship would benefit from provincial government financial guarantees designed to encourage lending institutions to engage in mediation rather than foreclosures the Ontario government should re-introduce, this year, a program of interest rate assistance (similar to the OFFIRR program) with sufficient funding and of adequate duration to bring about meaningful farm interest rate reduction in this province and, further, that the Ontario government should enact legislation similar to Manitoba's *Family Farm Protection Act* to assist farmers facing foreclosures by enabling them to renegotiate manageable credit terms. *March 28, 1990.*

47. *Mr Brandt*—Resolution—That, in the opinion of this House, recognizing the increased incidence of behavioural problems and violence in schools, and recognizing that children in Ontario currently do not have a right to mental health treatment and, recognizing that there are 10,000 children presently waiting for treatment in Children's Mental Health Centres and, recognizing that there is a lack of legislation in Ontario which specifically governs mental health services for children, the present government should make the provision of children's mental health services a government priority and take immediate action to ensure that all children in Ontario are provided the mental health services which they require and deserve. *April 4, 1990.*
 48. *Mr Kozyra*—Resolution—That, in the opinion of this House, recognizing that there presently exists a program called the Ontario Young Travellers Program which assists students in Northern Ontario with the cost of traveling to Southern Ontario to learn more about their Province and experience and access the resources located in the South, the Government of Ontario should take steps to implement a reciprocal program allowing students in the South to travel to the North so that they also have the opportunity to take advantage of both the human and natural resources available in the North and develop a greater understanding of the diversity of the Province. *April 4, 1990.*

423. *Mr Brandt*—Enquiry of the Ministry—Would the Minister of Health indicate whether, in accordance with the government's 1986 commitment, it has approved the funding and construction of any new acute care or chronic care beds for the Laurentian Hospital. If so, how many beds have been approved and when will these be ready for occupancy. If no approval has been given, specifically when can the hospital expect to hear either that your commitment has been withdrawn or that approval of funding for the additional beds has been granted. *April 3, 1990.*

PRIVATE MEMBERS' BUSINESS TO BE DEBATED

(Precedence in accordance with the Standing Order 94(d).)

Ballot Item Number 39. *To be debated Thursday, April 5, 1990.*

Second Reading Bill 113, An Act to establish the Rights of Victims of Crime.
Mr Jackson.

Ballot Item Number 40. *To be debated Thursday, April 5, 1990.*

Second Reading Bill 115, An Act to amend the Representation Act, 1986.
Mr MacDonald.

Ballot Item Number 41. *To be debated Thursday, April 12, 1990.*

*Mr Wildman—Resolution—*That, in the opinion of this House, recognizing that difficult financial and trade pressures threaten the viability of Ontario agriculture in 1990 and recognizing that the provincial government must make a significant financial commitment to the preservation, expansion and prosperity of family farming in Ontario in the forthcoming spring Budget and recognizing that farmers economic success in the 1990's will largely depend upon their ability to access and manage required capital resources and recognizing that Ontario farmers experiencing financial hardship would benefit from provincial government financial guarantees designed to encourage lending institutions to engage in mediation rather than foreclosures the Ontario government should re-introduce, this year, a program of interest rate assistance (similar to the OFFIRR program) with sufficient funding and of adequate duration to bring about meaningful farm interest rate reduction in this province and, further, that the Ontario government should enact legislation similar to Manitoba's *Family Farm Protection Act* to assist farmers facing foreclosures by enabling them to renegotiate manageable credit terms.

Ballot Item Number 42. *To be debated Thursday, April 12, 1990.*

*Mr Brandt—Resolution—*That, in the opinion of this House, recognizing the increased incidence of behavioural problems and violence in schools, and recognizing that children in Ontario currently do not have a right to mental health treatment and, recognizing that there are 10,000 children presently waiting for treatment in Children's Mental Health Centres and, recognizing that there is a lack of legislation in Ontario which specifically governs mental health services for children, the present government should make the provision of children's mental health services a government priority and take immediate action to ensure that all children in Ontario are provided the mental health services which they require and deserve.

Ballot Item Number 43. *To be debated Thursday, April 19, 1990.*

*Mr Kozyra—Resolution—*That, in the opinion of this House, recognizing that there presently exists a program called the Ontario Young Travellers Program which assists students in Northern Ontario with the cost of travelling to Southern Ontario to learn more about their Province and experience and access the resources located in the South, the Government of Ontario should take steps to

implement a reciprocal program allowing students in the South to travel to the North so that they also have the opportunity to take advantage of both the human and natural resources available in the North and develop a greater understanding of the diversity of the Province.

NOTICES

GOVERNMENT MOTION

30. *Debated April 3 and 4, 1990.*

PRIVATE MEMBERS' MOTIONS

1. *Ms Bryden*—Resolution—That in the opinion of this House, recognizing that huge rent increases year after year are constituting a threat to the competitiveness and survival of retail business in commercial strips serving residential neighbourhoods, the Government of Ontario should introduce legislation as soon as possible to regulate the rents for such business establishments in order to provide those businesses with protection from gouging landlords comparable to the protection given to tenants of residential rental premises under the Residential Rent Regulation Act, 1986. *April 27, 1989.*
2. *Ms Bryden*—Resolution—That, in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a charter of rights for part-time workers should be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment. *April 27, 1989.*
8. *Mr Brandt*—Motion of Censure—That this House has lost confidence in the Minister of the Environment's capacity to exercise his responsibilities as a Minister of the Crown, specifically his duty under the *Environmental Protection Act* to insure the public's safety from toxic chemicals, as well as his duty under the *Freedom of Information and Protection of Privacy Act, 1987* to disclose information regarding a grave environmental, health or safety hazard to the public.

Therefore, this House:

- 1) urges the Minister of the Environment to resign; and
 - 2) calls on the Premier of Ontario to appoint a public enquiry into his government's failure to insure that the public was fully informed with regard to the importation, sale, and use of toxic fuel and the government's mismanagement of this issue resulting in potential health and safety risks to the citizens of Ontario. *May 15, 1989.*
10. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that non-refundable tax credits for political contributions effectively disenfranchise those without taxable incomes from this aspect of the political process; and, acknowledging the unfair treatment the current system affords

lower-income Ontarians—many of whom are women, seniors, disabled, ethnic minorities, farmers and Native Canadians; legislation should be amended to provide for refundable tax credits to eliminate existing discrimination on the basis of income in the financing of Ontario political Parties and candidates. *May 17, 1989.*

23. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing the shortage of acute care beds which is in part due to the use of these beds by chronic care patients and recognizing the added cost to the system as a result of this misuse of acute care beds and recognizing the higher quality of life afforded to patients who can stay in their own homes and the added efficiency in the system as a result of home care; the government of Ontario should establish and maintain a system of community palliative care services which would allow people to be cared for in their own homes or in hospices where the atmosphere allows basic human dignity to be the top priority. *July 25, 1989.*
24. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing that Naturopathists have a body of knowledge on which the practice of naturopathy is based and recognizing the risk associated with an unlicensed person practicing naturopathy; the government of Ontario, recognizing the best interests of the public, should continue to legislate the regulation of Naturopathy. *July 25, 1989.*
28. *Mr Cousens*—Resolution—That in the opinion of this House, recognizing that all sittings of the District and Provincial Courts within the Judicial District of York Region take place in Newmarket; and that considerable time, expense and inconvenience is incurred by residents of the Town of Markham and South York Region since numerous matters are heard in Provincial Offences Court on an ongoing basis; the Attorney General should take immediate steps to have a regular sitting of the Provincial Offences Court and the Provincial Court (Criminal Division) at a location in the Town of Markham. *October 16, 1989.*
35. *Mr Runciman*—Resolution—That, in the opinion of this House, a Canadian-style Triple “E” Federal Senate (elected, regionally equal and effective) should be created and in the event that such a Senate is not implemented by Constitutional Agreement, the Government of Ontario should hold elections, in conjunction with the 1991 Municipal Elections, to choose people to fill present and future Ontario vacancies in the Senate. *November 27, 1989.*
37. *Mr McGuigan*—Resolution—That in the opinion of this House, the Standing Committee on Social Development should be asked to review the current state of regulations relating to required and recommended vaccinations of children in the Province of Ontario and in particular, in conjunction with vaccine-injuries in Ontario, the Committee should consider and recommend:

— an effective means of information about the benefits and risks of immunization and about known contra-indications;

- an effective method of parental instruction about how to deal with reactions, should they occur;
- an effective reporting system of adverse reactions in order to reduce the likelihood that children will receive contra-indicated inoculations;
- a general assurance that recipients of government sponsored immunizations, who experienced a serious adverse reaction, will be provided with compensation without the need to establish liability based on the elusive tort theory. *December 20, 1989.*

39. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing the need to protect and enhance the environment; the Government of Ontario should not offer any grants or loans for private sector projects not utilizing the best available environmental technology, and further, grant and loan criteria—specifically the Premier's Technology fund—should be amended by the Government of Ontario to give priority to projects developing environmental technology. *March 19, 1990.*
40. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that everyone has the right to life, liberty and security of the person, and the right not to be deprived thereof except in accordance with the principles of fundamental justice; the Government of Ontario should petition the Government of Canada to add the fundamental right of enjoyment of property to the Canadian Charter of Rights. *March 19, 1990.*
41. *Mrs Marland*—Resolution—That, in the opinion of this House, recognizing that the Province of Ontario has imposed a special tax of \$5 (plus a 40-cent retail sales tax) on every new tire sold in Ontario, and recognizing that used tires take up much needed space in existing landfill sites, the government should establish used tire depots in various regions of Ontario where used tires would be collected and shredded for recycling, and further that the cost of developing and operating these sites be paid for from the revenues collected from the above-noted taxes. *March 19, 1990.*
42. *Mr Mackenzie*—Resolution—That, in the opinion of this House, recognizing the current Regulations covering hygiene on construction sites are outdated and in need of amendment; that requirements for the provision of toilet and washroom facilities should be fully reflected in the Regulations of the Occupational Health and Safety Act (Sections 89/90); and that the requirements should be both practical and workable, result in the improvement of jobsite working conditions, and hence improve productivity on construction jobsites in the province. 1. The owner/constructor/project manager shall provide toilet and washing facilities on all construction sites in accordance with the following: a) where there are 15 or more workers on a project for a minimum period of one month the facilities shall include one flush (non-chemical) toilet and one urinal and one basin; and b) for each additional 30 workers or part thereof, an additional flush toilet, urinal and wash basin shall be added to facilities. 2. The costs borne by the owner/constructor/project manager in meeting the responsibilities of sections 89 & 90 cannot be transferred to other subcontractors/forces on the project. 3. The owner/constructor/project manager shall have the option of providing

the necessary facilities via access to facilities existing or adjacent to the worksite; via temporary fixed facilities constructed on the site; or via mobile units; conditional on site services being available. 4. On high-rise projects, the necessary facilities shall be made available on every fourth floor. 5. The toilet facilities provided shall be equipped as follows: a) within easy access of work sites, b) built so that the occupant is shielded from view, and protected from weather and falling objects. c) provided with natural or artificial lighting. d) provided with sufficient toilet paper and disinfectant. e) kept in a clean and sanitary condition. f) supplied with toilet seats and covers. g) heated to a minimum of 18 degrees C. h) suitably ventilated. 6. Where WHMIS-class products are present on the jobsite, washing facilities meeting the requirements of the applicable material safety data sheets shall be provided. b). If showers (with the exception of safety showers) are required, they shall have as a minimum standard a) hot and cold running water. b) soap or hand cleaner. c) paper towels or individual hand towels. *March 21, 1990.*

43. *Ms Oddie Munro*—Resolution—That, in the opinion of this House, recognizing that the current practice of the construction industry regarding the provision of sanitary and toilet facilities for construction workers is outdated, the Ministry of Labour should make appropriate amendments to Regulation 691 of R.R.O. 1980 under the *Occupational Health and Safety Act* to upgrade the minimum requirements for sanitary and toilet facilities on construction sites, and in particular should amend the regulations to require employers to provide flush toilets and hand-washing facilities (including soap and running water) at all construction sites and to provide separate facilities for each sex at sites where male and female workers are present. *March 21, 1990.*

45. *Mr Rae (York South)*—Resolution—That, in the opinion of this House, recognizing that unequal opportunity for employment and promotion exists in the province of Ontario for women, members of visible minority groups, native persons and people with disabilities, and recognizing that voluntary efforts to increase the representation of employable persons with such characteristics by employers have profoundly failed in both the private and public sectors of employment in Ontario, and recognizing that the only remedy to such an inequitable situation in Ontario is the introduction of a legislated mandatory employment equity program with enforceable goals and timetables, in both the private and public sectors, and with an emphasis on removing existing barriers to employment and promotion through the provision by government of such important and necessary services as job training, and child care, all parties in Ontario should join together to secure the enactment in the current legislative session of such employment equity legislation for Ontario. *March 22, 1990.*

46. *Mr Wildman*—Resolution—That, in the opinion of this House, recognizing that difficult financial and trade pressures threaten the viability of Ontario agriculture in 1990 and recognizing that the provincial government must make a significant financial commitment to the preservation, expansion and prosperity of family farming in Ontario in the forthcoming spring Bud-

get and recognizing that farmers economic success in the 1990's will largely depend upon their ability to access and manage required capital resources and recognizing that Ontario farmers experiencing financial hardship would benefit from provincial government financial guarantees designed to encourage lending institutions to engage in mediation rather than foreclosures the Ontario government should re-introduce, this year, a program of interest rate assistance (similar to the OFFIRR program) with sufficient funding and of adequate duration to bring about meaningful farm interest rate reduction in this province and, further, that the Ontario government should enact legislation similar to Manitoba's *Family Farm Protection Act* to assist farmers facing foreclosures by enabling them to renegotiate manageable credit terms. *March 28, 1990.*

47. *Mr Brandt*—Resolution—That, in the opinion of this House, recognizing the increased incidence of behavioural problems and violence in schools, and recognizing that children in Ontario currently do not have a right to mental health treatment and, recognizing that there are 10,000 children presently waiting for treatment in Children's Mental Health Centres and, recognizing that there is a lack of legislation in Ontario which specifically governs mental health services for children, the present government should make the provision of children's mental health services a government priority and take immediate action to ensure that all children in Ontario are provided the mental health services which they require and deserve. *April 4, 1990.*
 48. *Mr Kozyra*—Resolution—That, in the opinion of this House, recognizing that there presently exists a program called the Ontario Young Travellers Program which assists students in Northern Ontario with the cost of travelling to Southern Ontario to learn more about their Province and experience and access the resources located in the South, the Government of Ontario should take steps to implement a reciprocal program allowing students in the South to travel to the North so that they also have the opportunity to take advantage of both the human and natural resources available in the North and develop a greater understanding of the diversity of the Province. *April 4, 1990.*

GOVERNMENT MOTION

30. *Debated April 3, 4 and 5, 1990.*

PRIVATE MEMBERS' MOTIONS

1. *Ms Bryden*—Resolution—That in the opinion of this House, recognizing that huge rent increases year after year are constituting a threat to the competitiveness and survival of retail business in commercial strips serving residential neighbourhoods, the Government of Ontario should introduce legislation as soon as possible to regulate the rents for such business establishments in order to provide those businesses with protection from gouging landlords comparable to the protection given to tenants of residential rental premises under the Residential Rent Regulation Act, 1986. *April 27, 1989.*
2. *Ms Bryden*—Resolution—That, in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a charter of rights for part-time workers should be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment. *April 27, 1989.*
8. *Mr Brandt*—Motion of Censure—That this House has lost confidence in the Minister of the Environment's capacity to exercise his responsibilities as a Minister of the Crown, specifically his duty under the *Environmental Protection Act* to insure the public's safety from toxic chemicals, as well as his duty under the *Freedom of Information and Protection of Privacy Act, 1987* to disclose information regarding a grave environmental, health or safety hazard to the public.

Therefore, this House:

- 1) urges the Minister of the Environment to resign; and
 - 2) calls on the Premier of Ontario to appoint a public enquiry into his government's failure to insure that the public was fully informed with regard to the importation, sale, and use of toxic fuel and the government's mismanagement of this issue resulting in potential health and safety risks to the citizens of Ontario. *May 15, 1989.*
10. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that non-refundable tax credits for political contributions effectively disenfranchise those without taxable incomes from this aspect of the political process; and, acknowledging the unfair treatment the current system affords

lower-income Ontarians—many of whom are women, seniors, disabled, ethnic minorities, farmers and Native Canadians; legislation should be amended to provide for refundable tax credits to eliminate existing discrimination on the basis of income in the financing of Ontario political Parties and candidates. *May 17, 1989.*

23. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing the shortage of acute care beds which is in part due to the use of these beds by chronic care patients and recognizing the added cost to the system as a result of this misuse of acute care beds and recognizing the higher quality of life afforded to patients who can stay in their own homes and the added efficiency in the system as a result of home care; the government of Ontario should establish and maintain a system of community palliative care services which would allow people to be cared for in their own homes or in hospices where the atmosphere allows basic human dignity to be the top priority. *July 25, 1989.*
24. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing that Naturopathists have a body of knowledge on which the practice of naturopathy is based and recognizing the risk associated with an unlicensed person practicing naturopathy; the government of Ontario, recognizing the best interests of the public, should continue to legislate the regulation of Naturopathy. *July 25, 1989.*
28. *Mr Cousens*—Resolution—That in the opinion of this House, recognizing that all sittings of the District and Provincial Courts within the Judicial District of York Region take place in Newmarket; and that considerable time, expense and inconvenience is incurred by residents of the Town of Markham and South York Region since numerous matters are heard in Provincial Offences Court on an ongoing basis; the Attorney General should take immediate steps to have a regular sitting of the Provincial Offences Court and the Provincial Court (Criminal Division) at a location in the Town of Markham. *October 16, 1989.*
35. *Mr Runciman*—Resolution—That, in the opinion of this House, a Canadian-style Triple “E” Federal Senate (elected, regionally equal and effective) should be created and in the event that such a Senate is not implemented by Constitutional Agreement, the Government of Ontario should hold elections, in conjunction with the 1991 Municipal Elections, to choose people to fill present and future Ontario vacancies in the Senate. *November 27, 1989.*
37. *Mr McGuigan*—Resolution—That in the opinion of this House, the Standing Committee on Social Development should be asked to review the current state of regulations relating to required and recommended vaccinations of children in the Province of Ontario and in particular, in conjunction with vaccine-injuries in Ontario, the Committee should consider and recommend:

— an effective means of information about the benefits and risks of immunization and about known contra-indications;

- an effective method of parental instruction about how to deal with reactions, should they occur;
- an effective reporting system of adverse reactions in order to reduce the likelihood that children will receive contra-indicated inoculations;
- a general assurance that recipients of government sponsored immunizations, who experienced a serious adverse reaction, will be provided with compensation without the need to establish liability based on the elusive tort theory. *December 20, 1989.*

39. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing the need to protect and enhance the environment; the Government of Ontario should not offer any grants or loans for private sector projects not utilizing the best available environmental technology, and further, grant and loan criteria—specifically the Premier's Technology fund—should be amended by the Government of Ontario to give priority to projects developing environmental technology. *March 19, 1990.*
40. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that everyone has the right to life, liberty and security of the person, and the right not to be deprived thereof except in accordance with the principles of fundamental justice; the Government of Ontario should petition the Government of Canada to add the fundamental right of enjoyment of property to the Canadian Charter of Rights. *March 19, 1990.*
41. *Mrs Marland*—Resolution—That, in the opinion of this House, recognizing that the Province of Ontario has imposed a special tax of \$5 (plus a 40-cent retail sales tax) on every new tire sold in Ontario, and recognizing that used tires take up much needed space in existing landfill sites, the government should establish used tire depots in various regions of Ontario where used tires would be collected and shredded for recycling, and further that the cost of developing and operating these sites be paid for from the revenues collected from the above-noted taxes. *March 19, 1990.*
42. *Mr Mackenzie*—Resolution—That, in the opinion of this House, recognizing the current Regulations covering hygiene on construction sites are outdated and in need of amendment; that requirements for the provision of toilet and washroom facilities should be fully reflected in the Regulations of the Occupational Health and Safety Act (Sections 89/90); and that the requirements should be both practical and workable, result in the improvement of jobsite working conditions, and hence improve productivity on construction jobsites in the province. 1. The owner/constructor/project manager shall provide toilet and washing facilities on all construction sites in accordance with the following: a) where there are 15 or more workers on a project for a minimum period of one month the facilities shall include one flush (non-chemical) toilet and one urinal and one basin; and b) for each additional 30 workers or part thereof, an additional flush toilet, urinal and wash basin shall be added to facilities. 2. The costs borne by the owner/constructor/project manager in meeting the responsibilities of sections 89 & 90 cannot be transferred to other subcontractors/forces on the project. 3. The owner/constructor/project manager shall have the option of providing

the necessary facilities via access to facilities existing or adjacent to the worksite; via temporary fixed facilities constructed on the site; or via mobile units; conditional on site services being available. 4. On high-rise projects, the necessary facilities shall be made available on every fourth floor. 5. The toilet facilities provided shall be equipped as follows: a) within easy access of work sites, b) built so that the occupant is shielded from view, and protected from weather and falling objects. c) provided with natural or artificial lighting. d) provided with sufficient toilet paper and disinfectant. e) kept in a clean and sanitary condition. f) supplied with toilet seats and covers. g) heated to a minimum of 18 degrees C. h) suitably ventilated. 6. Basins provided shall have as a minimum standard a) hot and cold running water. b) soap or hand cleaner. c) hand towels. 90 1.a). Where WHMIS-class products are present on the jobsite, washing facilities meeting the requirements of the applicable material safety data sheets shall be provided. b). If showers (with the exception of safety showers) are required, they shall have as a minimum standard a) hot and cold running water. b) soap or hand cleaner. c) paper towels or individual hand towels. *March 21, 1990.*

43. *Ms Oddie Munro*—Resolution—That, in the opinion of this House, recognizing that the current practice of the construction industry regarding the provision of sanitary and toilet facilities for construction workers is outdated, the Ministry of Labour should make appropriate amendments to Regulation 691 of R.R.O. 1980 under the *Occupational Health and Safety Act* to upgrade the minimum requirements for sanitary and toilet facilities on construction sites, and in particular should amend the regulations to require employers to provide flush toilets and hand-washing facilities (including soap and running water) at all construction sites and to provide separate facilities for each sex at sites where male and female workers are present. *March 21, 1990.*
45. *Mr Rae* (York South)—Resolution—That, in the opinion of this House, recognizing that unequal opportunity for employment and promotion exists in the province of Ontario for women, members of visible minority groups, native persons and people with disabilities, and recognizing that voluntary efforts to increase the representation of employable persons with such characteristics by employers have profoundly failed in both the private and public sectors of employment in Ontario, and recognizing that the only remedy to such an inequitable situation in Ontario is the introduction of a legislated mandatory employment equity program with enforceable goals and timetables, in both the private and public sectors, and with an emphasis on removing existing barriers to employment and promotion through the provision by government of such important and necessary services as job training, and child care, all parties in Ontario should join together to secure the enactment in the current legislative session of such employment equity legislation for Ontario. *March 22, 1990.*
46. *Mr Wildman*—Resolution—That, in the opinion of this House, recognizing that difficult financial and trade pressures threaten the viability of Ontario agriculture in 1990 and recognizing that the provincial government must make a significant financial commitment to the preservation, expansion and prosperity of family farming in Ontario in the forthcoming spring Bud-

get and recognizing that farmers economic success in the 1990s will largely depend upon their ability to access and manage required capital resources and recognizing that Ontario farmers experiencing financial hardship would benefit from provincial government financial guarantees designed to encourage lending institutions to engage in mediation rather than foreclosures the Ontario government should re-introduce, this year, a program of interest rate assistance (similar to the OFFIRR program) with sufficient funding and of adequate duration to bring about meaningful farm interest rate reduction in this province and, further, that the Ontario government should enact legislation similar to Manitoba's *Family Farm Protection Act* to assist farmers facing foreclosures by enabling them to renegotiate manageable credit terms. *March 28, 1990.*

47. *Mr Brandt*—Resolution—That, in the opinion of this House, recognizing the increased incidence of behavioural problems and violence in schools, and recognizing that children in Ontario currently do not have a right to mental health treatment and, recognizing that there are 10,000 children presently waiting for treatment in Children's Mental Health Centres and, recognizing that there is a lack of legislation in Ontario which specifically governs mental health services for children, the present government should make the provision of children's mental health services a government priority and take immediate action to ensure that all children in Ontario are provided the mental health services which they require and deserve. *April 4, 1990.*
 48. *Mr Kozyra*—Resolution—That, in the opinion of this House, recognizing that there presently exists a program called the Ontario Young Travellers Program which assists students in Northern Ontario with the cost of travelling to Southern Ontario to learn more about their Province and experience and access the resources located in the South, the Government of Ontario should take steps to implement a reciprocal program allowing students in the South to travel to the North so that they also have the opportunity to take advantage of both the human and natural resources available in the North and develop a greater understanding of the diversity of the Province. *April 4, 1990.*

PRIVATE MEMBERS' BUSINESS TO BE DEBATED

(Precedence in accordance with the Standing Order 94(d).)

Ballot Item Numbers 39 and 40. *Debated April 5, 1990.*

Ballot Item Number 41. *To be debated Thursday, April 12, 1990.*

Mr Wildman—Resolution—That, in the opinion of this House, recognizing that difficult financial and trade pressures threaten the viability of Ontario agriculture in 1990 and recognizing that the provincial government must make a significant financial commitment to the preservation, expansion and prosperity of family farming in Ontario in the forthcoming spring Budget and recognizing that farmers economic success in the 1990s will largely depend upon their ability to access and manage required capital resources and recognizing that Ontario farmers experiencing financial hardship would benefit from provincial government financial guarantees designed to encourage lending institutions to engage in mediation rather than foreclosures the Ontario government should re-introduce, this year, a program of interest rate assistance (similar to the OFFIRR program) with sufficient funding and of adequate duration to bring about meaningful farm interest rate reduction in this province and, further, that the Ontario government should enact legislation similar to Manitoba's *Family Farm Protection Act* to assist farmers facing foreclosures by enabling them to renegotiate manageable credit terms.

Ballot Item Number 42. *To be debated Thursday, April 12, 1990.*

Mr Brandt—Resolution—That, in the opinion of this House, recognizing the increased incidence of behavioural problems and violence in schools, and recognizing that children in Ontario currently do not have a right to mental health treatment and, recognizing that there are 10,000 children presently waiting for treatment in Children's Mental Health Centres and, recognizing that there is a lack of legislation in Ontario which specifically governs mental health services for children, the present government should make the provision of children's mental health services a government priority and take immediate action to ensure that all children in Ontario are provided the mental health services which they require and deserve.

Ballot Item Number 43. *To be debated Thursday, April 19, 1990.*

Mr Kozyra—Resolution—That, in the opinion of this House, recognizing that there presently exists a program called the Ontario Young Travellers Program which assists students in Northern Ontario with the cost of travelling to Southern Ontario to learn more about their Province and experience and access the resources located in the South, the Government of Ontario should take steps to implement a reciprocal program allowing students in the South to travel to the North so that they also have the opportunity to take advantage of both the human and natural resources available in the North and develop a greater understanding of the diversity of the Province.

NOTICES

GOVERNMENT MOTION

30. *Debated April 3, 4, 5 and 9, 1990.*
-

PRIVATE MEMBERS' MOTIONS

1. *Ms Bryden*—Resolution—That in the opinion of this House, recognizing that huge rent increases year after year are constituting a threat to the competitiveness and survival of retail business in commercial strips serving residential neighbourhoods, the Government of Ontario should introduce legislation as soon as possible to regulate the rents for such business establishments in order to provide those businesses with protection from gouging landlords comparable to the protection given to tenants of residential rental premises under the Residential Rent Regulation Act, 1986. *April 27, 1989.*
2. *Ms Bryden*—Resolution—That, in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a charter of rights for part-time workers should be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment. *April 27, 1989.*
8. *Mr Brandt*—Motion of Censure—That this House has lost confidence in the Minister of the Environment's capacity to exercise his responsibilities as a Minister of the Crown, specifically his duty under the *Environmental Protection Act* to insure the public's safety from toxic chemicals, as well as his duty under the *Freedom of Information and Protection of Privacy Act, 1987* to disclose information regarding a grave environmental, health or safety hazard to the public.

Therefore, this House:

- 1) urges the Minister of the Environment to resign; and
 - 2) calls on the Premier of Ontario to appoint a public enquiry into his government's failure to insure that the public was fully informed with regard to the importation, sale, and use of toxic fuel and the government's mismanagement of this issue resulting in potential health and safety risks to the citizens of Ontario. *May 15, 1989.*
10. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that non-refundable tax credits for political contributions effectively disenfranchise those without taxable incomes from this aspect of the political process; and, acknowledging the unfair treatment the current system affords

lower-income Ontarians—many of whom are women, seniors, disabled, ethnic minorities, farmers and Native Canadians; legislation should be amended to provide for refundable tax credits to eliminate existing discrimination on the basis of income in the financing of Ontario political Parties and candidates. *May 17, 1989.*

23. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing the shortage of acute care beds which is in part due to the use of these beds by chronic care patients and recognizing the added cost to the system as a result of this misuse of acute care beds and recognizing the higher quality of life afforded to patients who can stay in their own homes and the added efficiency in the system as a result of home care; the government of Ontario should establish and maintain a system of community palliative care services which would allow people to be cared for in their own homes or in hospices where the atmosphere allows basic human dignity to be the top priority. *July 25, 1989.*
24. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing that Naturopathists have a body of knowledge on which the practice of naturopathy is based and recognizing the risk associated with an unlicensed person practicing naturopathy; the government of Ontario, recognizing the best interests of the public, should continue to legislate the regulation of Naturopathy. *July 25, 1989.*
28. *Mr Cousens*—Resolution—That in the opinion of this House, recognizing that all sittings of the District and Provincial Courts within the Judicial District of York Region take place in Newmarket; and that considerable time, expense and inconvenience is incurred by residents of the Town of Markham and South York Region since numerous matters are heard in Provincial Offences Court on an ongoing basis; the Attorney General should take immediate steps to have a regular sitting of the Provincial Offences Court and the Provincial Court (Criminal Division) at a location in the Town of Markham. *October 16, 1989.*
35. *Mr Runciman*—Resolution—That, in the opinion of this House, a Canadian-style Triple “E” Federal Senate (elected, regionally equal and effective) should be created and in the event that such a Senate is not implemented by Constitutional Agreement, the Government of Ontario should hold elections, in conjunction with the 1991 Municipal Elections, to choose people to fill present and future Ontario vacancies in the Senate. *November 27, 1989.*
37. *Mr McGuigan*—Resolution—That in the opinion of this House, the Standing Committee on Social Development should be asked to review the current state of regulations relating to required and recommended vaccinations of children in the Province of Ontario and in particular, in conjunction with vaccine-injuries in Ontario, the Committee should consider and recommend:

— an effective means of information about the benefits and risks of immunization and about known contra-indications;

- an effective method of parental instruction about how to deal with reactions, should they occur;
 - an effective reporting system of adverse reactions in order to reduce the likelihood that children will receive contra-indicated inoculations;
 - a general assurance that recipients of government sponsored immunizations, who experienced a serious adverse reaction, will be provided with compensation without the need to establish liability based on the elusive tort theory. *December 20, 1989.*
39. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing the need to protect and enhance the environment; the Government of Ontario should not offer any grants or loans for private sector projects not utilizing the best available environmental technology, and further, grant and loan criteria—specifically the Premier's Technology fund—should be amended by the Government of Ontario to give priority to projects developing environmental technology. *March 19, 1990.*
40. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that everyone has the right to life, liberty and security of the person, and the right not to be deprived thereof except in accordance with the principles of fundamental justice; the Government of Ontario should petition the Government of Canada to add the fundamental right of enjoyment of property to the Canadian Charter of Rights. *March 19, 1990.*
41. *Mrs Marland*—Resolution—That, in the opinion of this House, recognizing that the Province of Ontario has imposed a special tax of \$5 (plus a 40-cent retail sales tax) on every new tire sold in Ontario, and recognizing that used tires take up much needed space in existing landfill sites, the government should establish used tire depots in various regions of Ontario where used tires would be collected and shredded for recycling, and further that the cost of developing and operating these sites be paid for from the revenues collected from the above-noted taxes. *March 19, 1990.*
42. *Mr Mackenzie*—Resolution—That, in the opinion of this House, recognizing the current Regulations covering hygiene on construction sites are outdated and in need of amendment; that requirements for the provision of toilet and washroom facilities should be fully reflected in the Regulations of the Occupational Health and Safety Act (Sections 89/90); and that the requirements should be both practical and workable, result in the improvement of jobsite working conditions, and hence improve productivity on construction jobsites in the province. 1. The owner/constructor/project manager shall provide toilet and washing facilities on all construction sites in accordance with the following: a) where there are 15 or more workers on a project for a minimum period of one month the facilities shall include one flush (non-chemical) toilet and one urinal and one basin; and b) for each additional 30 workers or part thereof, an additional flush toilet, urinal and wash basin shall be added to facilities. 2. The costs borne by the owner/constructor/project manager in meeting the responsibilities of sections 89 & 90 cannot be transferred to other subcontractors/forces on the project. 3. The owner/constructor/project manager shall have the option of providing

the necessary facilities via access to facilities existing or adjacent to the worksite; via temporary fixed facilities constructed on the site; or via mobile units; conditional on site services being available. 4. On high-rise projects, the necessary facilities shall be made available on every fourth floor. 5. The toilet facilities provided shall be equipped as follows: a) within easy access of work sites, b) built so that the occupant is shielded from view, and protected from weather and falling objects, c) provided with natural or artificial lighting, d) provided with sufficient toilet paper and disinfectant, e) kept in a clean and sanitary condition, f) supplied with toilet seats and covers, g) heated to a minimum of 18 degrees C, h) suitably ventilated. 6. Basins provided shall have as a minimum standard a) hot and cold running water, b) soap or hand cleaner, c) hand towels. 90 l.a). Where WHMIS-class products are present on the jobsite, washing facilities meeting the requirements of the applicable material safety data sheets shall be provided. b). If showers (with the exception of safety showers) are required, they shall have as a minimum standard a) hot and cold running water, b) soap or hand cleaner, c) paper towels or individual hand towels. *March 21, 1990.*

43. *Ms Oddie Munro*—Resolution—That, in the opinion of this House, recognizing that the current practice of the construction industry regarding the provision of sanitary and toilet facilities for construction workers is outdated, the Ministry of Labour should make appropriate amendments to Regulation 691 of R.R.O. 1980 under the *Occupational Health and Safety Act* to upgrade the minimum requirements for sanitary and toilet facilities on construction sites, and in particular should amend the regulations to require employers to provide flush toilets and hand-washing facilities (including soap and running water) at all construction sites and to provide separate facilities for each sex at sites where male and female workers are present. *March 21, 1990.*
45. *Mr Rae (York South)*—Resolution—That, in the opinion of this House, recognizing that unequal opportunity for employment and promotion exists in the province of Ontario for women, members of visible minority groups, native persons and people with disabilities, and recognizing that voluntary efforts to increase the representation of employable persons with such characteristics by employers have profoundly failed in both the private and public sectors of employment in Ontario, and recognizing that the only remedy to such an inequitable situation in Ontario is the introduction of a legislated mandatory employment equity program with enforceable goals and timetables, in both the private and public sectors, and with an emphasis on removing existing barriers to employment and promotion through the provision by government of such important and necessary services as job training, and child care, all parties in Ontario should join together to secure the enactment in the current legislative session of such employment equity legislation for Ontario. *March 22, 1990.*
46. *Mr Wildman*—Resolution—That, in the opinion of this House, recognizing that difficult financial and trade pressures threaten the viability of Ontario agriculture in 1990 and recognizing that the provincial government must make a significant financial commitment to the preservation, expansion and prosperity of family farming in Ontario in the forthcoming spring Bud-

get and recognizing that farmers economic success in the 1990s will largely depend upon their ability to access and manage required capital resources and recognizing that Ontario farmers experiencing financial hardship would benefit from provincial government financial guarantees designed to encourage lending institutions to engage in mediation rather than foreclosures the Ontario government should re-introduce, this year, a program of interest rate assistance (similar to the OFFIRR program) with sufficient funding and of adequate duration to bring about meaningful farm interest rate reduction in this province and, further, that the Ontario government should enact legislation similar to Manitoba's *Family Farm Protection Act* to assist farmers facing foreclosures by enabling them to renegotiate manageable credit terms. *March 28, 1990.*

47. *Mr Brandt*—Resolution—That, in the opinion of this House, recognizing the increased incidence of behavioural problems and violence in schools, and recognizing that children in Ontario currently do not have a right to mental health treatment and, recognizing that there are 10,000 children presently waiting for treatment in Children's Mental Health Centres and, recognizing that there is a lack of legislation in Ontario which specifically governs mental health services for children, the present government should make the provision of children's mental health services a government priority and take immediate action to ensure that all children in Ontario are provided the mental health services which they require and deserve. *April 4, 1990.*
 48. *Mr Kozyra*—Resolution—That, in the opinion of this House, recognizing that there presently exists a program called the Ontario Young Travellers Program which assists students in Northern Ontario with the cost of travelling to Southern Ontario to learn more about their Province and experience and access the resources located in the South, the Government of Ontario should take steps to implement a reciprocal program allowing students in the South to travel to the North so that they also have the opportunity to take advantage of both the human and natural resources available in the North and develop a greater understanding of the diversity of the Province. *April 4, 1990.*

PRIVATE MEMBERS' BUSINESS TO BE DEBATED

(Precedence in accordance with the Standing Order 94(d).)

Ballot Item Number 41. *To be debated Thursday, April 12, 1990.*

Mr Wildman—Resolution—That, in the opinion of this House, recognizing that difficult financial and trade pressures threaten the viability of Ontario agriculture in 1990 and recognizing that the provincial government must make a significant financial commitment to the preservation, expansion and prosperity of family farming in Ontario in the forthcoming spring Budget and recognizing that farmers economic success in the 1990s will largely depend upon their ability to access and manage required capital resources and recognizing that Ontario farmers experiencing financial hardship would benefit from provincial government financial guarantees designed to encourage lending institutions to engage in mediation rather than foreclosures the Ontario government should re-introduce, this year, a program of interest rate assistance (similar to the OFFIRR program) with sufficient funding and of adequate duration to bring about meaningful farm interest rate reduction in this province and, further, that the Ontario government should enact legislation similar to Manitoba's *Family Farm Protection Act* to assist farmers facing foreclosures by enabling them to renegotiate manageable credit terms.

Ballot Item Number 42. *To be debated Thursday, April 12, 1990.*

Mr Brandt—Resolution—That, in the opinion of this House, recognizing the increased incidence of behavioural problems and violence in schools, and recognizing that children in Ontario currently do not have a right to mental health treatment and, recognizing that there are 10,000 children presently waiting for treatment in Children's Mental Health Centres and, recognizing that there is a lack of legislation in Ontario which specifically governs mental health services for children, the present government should make the provision of children's mental health services a government priority and take immediate action to ensure that all children in Ontario are provided the mental health services which they require and deserve.

Ballot Item Number 43. *To be debated Thursday, April 19, 1990.*

Mr Kozyra—Resolution—That, in the opinion of this House, recognizing that there presently exists a program called the Ontario Young Travellers Program which assists students in Northern Ontario with the cost of travelling to Southern Ontario to learn more about their Province and experience and access the resources located in the South, the Government of Ontario should take steps to implement a reciprocal program allowing students in the South to travel to the North so that they also have the opportunity to take advantage of both the human and natural resources available in the North and develop a greater understanding of the diversity of the Province.

NOTICES

GOVERNMENT MOTION

30. *Debated April 3, 4, 5, 9 and 10, 1990.*

PRIVATE MEMBERS' MOTIONS

1. *Ms Bryden*—Resolution—That in the opinion of this House, recognizing that huge rent increases year after year are constituting a threat to the competitiveness and survival of retail business in commercial strips serving residential neighbourhoods, the Government of Ontario should introduce legislation as soon as possible to regulate the rents for such business establishments in order to provide those businesses with protection from gouging landlords comparable to the protection given to tenants of residential rental premises under the Residential Rent Regulation Act, 1986. *April 27, 1989.*
2. *Ms Bryden*—Resolution—That, in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a charter of rights for part-time workers should be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment. *April 27, 1989.*
8. *Mr Brandt*—Motion of Censure—That this House has lost confidence in the Minister of the Environment's capacity to exercise his responsibilities as a Minister of the Crown, specifically his duty under the *Environmental Protection Act* to insure the public's safety from toxic chemicals, as well as his duty under the *Freedom of Information and Protection of Privacy Act, 1987* to disclose information regarding a grave environmental, health or safety hazard to the public.

Therefore, this House:

- 1) urges the Minister of the Environment to resign; and
 - 2) calls on the Premier of Ontario to appoint a public enquiry into his government's failure to insure that the public was fully informed with regard to the importation, sale, and use of toxic fuel and the government's mismanagement of this issue resulting in potential health and safety risks to the citizens of Ontario. *May 15, 1989.*
10. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that non-refundable tax credits for political contributions effectively disenfranchise those without taxable incomes from this aspect of the political process; and, acknowledging the unfair treatment the current system affords

lower-income Ontarians—many of whom are women, seniors, disabled, ethnic minorities, farmers and Native Canadians; legislation should be amended to provide for refundable tax credits to eliminate existing discrimination on the basis of income in the financing of Ontario political Parties and candidates. *May 17, 1989.*

23. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing the shortage of acute care beds which is in part due to the use of these beds by chronic care patients and recognizing the added cost to the system as a result of this misuse of acute care beds and recognizing the higher quality of life afforded to patients who can stay in their own homes and the added efficiency in the system as a result of home care; the government of Ontario should establish and maintain a system of community palliative care services which would allow people to be cared for in their own homes or in hospices where the atmosphere allows basic human dignity to be the top priority. *July 25, 1989.*
24. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing that Naturopathists have a body of knowledge on which the practice of naturopathy is based and recognizing the risk associated with an unlicensed person practicing naturopathy; the government of Ontario, recognizing the best interests of the public, should continue to legislate the regulation of Naturopathy. *July 25, 1989.*
28. *Mr Cousens*—Resolution—That in the opinion of this House, recognizing that all sittings of the District and Provincial Courts within the Judicial District of York Region take place in Newmarket; and that considerable time, expense and inconvenience is incurred by residents of the Town of Markham and South York Region since numerous matters are heard in Provincial Offences Court on an ongoing basis; the Attorney General should take immediate steps to have a regular sitting of the Provincial Offences Court and the Provincial Court (Criminal Division) at a location in the Town of Markham. *October 16, 1989.*
35. *Mr Runciman*—Resolution—That, in the opinion of this House, a Canadian-style Triple “E” Federal Senate (elected, regionally equal and effective) should be created and in the event that such a Senate is not implemented by Constitutional Agreement, the Government of Ontario should hold elections, in conjunction with the 1991 Municipal Elections, to choose people to fill present and future Ontario vacancies in the Senate. *November 27, 1989.*
37. *Mr McGuigan*—Resolution—That in the opinion of this House, the Standing Committee on Social Development should be asked to review the current state of regulations relating to required and recommended vaccinations of children in the Province of Ontario and in particular, in conjunction with vaccine-injuries in Ontario, the Committee should consider and recommend:

— an effective means of information about the benefits and risks of immunization and about known contra-indications;

- an effective method of parental instruction about how to deal with reactions, should they occur;
- an effective reporting system of adverse reactions in order to reduce the likelihood that children will receive contra-indicated inoculations;
- a general assurance that recipients of government sponsored immunizations, who experienced a serious adverse reaction, will be provided with compensation without the need to establish liability based on the elusive tort theory. *December 20, 1989.*

39. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing the need to protect and enhance the environment; the Government of Ontario should not offer any grants or loans for private sector projects not utilizing the best available environmental technology, and further, grant and loan criteria—specifically the Premier's Technology fund—should be amended by the Government of Ontario to give priority to projects developing environmental technology. *March 19, 1990.*
40. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that everyone has the right to life, liberty and security of the person, and the right not to be deprived thereof except in accordance with the principles of fundamental justice; the Government of Ontario should petition the Government of Canada to add the fundamental right of enjoyment of property to the Canadian Charter of Rights. *March 19, 1990.*
41. *Mrs Marland*—Resolution—That, in the opinion of this House, recognizing that the Province of Ontario has imposed a special tax of \$5 (plus a 40-cent retail sales tax) on every new tire sold in Ontario, and recognizing that used tires take up much needed space in existing landfill sites, the government should establish used tire depots in various regions of Ontario where used tires would be collected and shredded for recycling, and further that the cost of developing and operating these sites be paid for from the revenues collected from the above-noted taxes. *March 19, 1990.*
42. *Mr Mackenzie*—Resolution—That, in the opinion of this House, recognizing the current Regulations covering hygiene on construction sites are outdated and in need of amendment; that requirements for the provision of toilet and washroom facilities should be fully reflected in the Regulations of the Occupational Health and Safety Act (Sections 89/90); and that the requirements should be both practical and workable, result in the improvement of jobsite working conditions, and hence improve productivity on construction jobsites in the province. 1. The owner/constructor/project manager shall provide toilet and washing facilities on all construction sites in accordance with the following: a) where there are 15 or more workers on a project for a minimum period of one month the facilities shall include one flush (non-chemical) toilet and one urinal and one basin; and b) for each additional 30 workers or part thereof, an additional flush toilet, urinal and wash basin shall be added to facilities. 2. The costs borne by the owner/constructor/project manager in meeting the responsibilities of sections 89 & 90 cannot be transferred to other subcontractors/forces on the project. 3. The owner/constructor/project manager shall have the option of providing

the necessary facilities via access to facilities existing or adjacent to the worksite; via temporary fixed facilities constructed on the site; or via mobile units; conditional on site services being available. 4. On high-rise projects, the necessary facilities shall be made available on every fourth floor. 5. The toilet facilities provided shall be equipped as follows: a) within easy access of work sites, b) built so that the occupant is shielded from view, and protected from weather and falling objects. c) provided with natural or artificial lighting. d) provided with sufficient toilet paper and disinfectant. e) kept in a clean and sanitary condition. f) supplied with toilet seats and covers. g) heated to a minimum of 18 degrees C. h) suitably ventilated. 6. Basins provided shall have as a minimum standard a) hot and cold running water. b) soap or hand cleaner. c) hand towels. 90 1.a). Where WHMIS-class products are present on the jobsite, washing facilities meeting the requirements of the applicable material safety data sheets shall be provided. b). If showers (with the exception of safety showers) are required, they shall have as a minimum standard a) hot and cold running water. b) soap or hand cleaner. c) paper towels or individual hand towels. *March 21, 1990.*

43. *Ms Oddie Munro*—Resolution—That, in the opinion of this House, recognizing that the current practice of the construction industry regarding the provision of sanitary and toilet facilities for construction workers is outdated, the Ministry of Labour should make appropriate amendments to Regulation 691 of R.R.O. 1980 under the *Occupational Health and Safety Act* to upgrade the minimum requirements for sanitary and toilet facilities on construction sites, and in particular should amend the regulations to require employers to provide flush toilets and hand-washing facilities (including soap and running water) at all construction sites and to provide separate facilities for each sex at sites where male and female workers are present. *March 21, 1990.*
45. *Mr Rae (York South)*—Resolution—That, in the opinion of this House, recognizing that unequal opportunity for employment and promotion exists in the province of Ontario for women, members of visible minority groups, native persons and people with disabilities, and recognizing that voluntary efforts to increase the representation of employable persons with such characteristics by employers have profoundly failed in both the private and public sectors of employment in Ontario, and recognizing that the only remedy to such an inequitable situation in Ontario is the introduction of a legislated mandatory employment equity program with enforceable goals and timetables, in both the private and public sectors, and with an emphasis on removing existing barriers to employment and promotion through the provision by government of such important and necessary services as job training, and child care, all parties in Ontario should join together to secure the enactment in the current legislative session of such employment equity legislation for Ontario. *March 22, 1990.*
46. *Mr Wildman*—Resolution—That, in the opinion of this House, recognizing that difficult financial and trade pressures threaten the viability of Ontario agriculture in 1990 and recognizing that the provincial government must make a significant financial commitment to the preservation, expansion and prosperity of family farming in Ontario in the forthcoming spring Bud-

get and recognizing that farmers economic success in the 1990s will largely depend upon their ability to access and manage required capital resources and recognizing that Ontario farmers experiencing financial hardship would benefit from provincial government financial guarantees designed to encourage lending institutions to engage in mediation rather than foreclosures the Ontario government should re-introduce, this year, a program of interest rate assistance (similar to the OFFIRR program) with sufficient funding and of adequate duration to bring about meaningful farm interest rate reduction in this province and, further, that the Ontario government should enact legislation similar to Manitoba's *Family Farm Protection Act* to assist farmers facing foreclosures by enabling them to renegotiate manageable credit terms. *March 28, 1990.*

47. *Mr Brandt*—Resolution—That, in the opinion of this House, recognizing the increased incidence of behavioural problems and violence in schools, and recognizing that children in Ontario currently do not have a right to mental health treatment and, recognizing that there are 10,000 children presently waiting for treatment in Children's Mental Health Centres and, recognizing that there is a lack of legislation in Ontario which specifically governs mental health services for children, the present government should make the provision of children's mental health services a government priority and take immediate action to ensure that all children in Ontario are provided the mental health services which they require and deserve. *April 4, 1990.*
 48. *Mr Kozyra*—Resolution—That, in the opinion of this House, recognizing that there presently exists a program called the Ontario Young Travellers Program which assists students in Northern Ontario with the cost of traveling to Southern Ontario to learn more about their Province and experience and access the resources located in the South, the Government of Ontario should take steps to implement a reciprocal program allowing students in the South to travel to the North so that they also have the opportunity to take advantage of both the human and natural resources available in the North and develop a greater understanding of the diversity of the Province. *April 4, 1990.*
 49. *Mr Carrothers*—Resolution—That, in the opinion of this House, since the problems facing society and government are becoming increasingly more complex; and that the most valuable resource that the Ontario Government or any other government has are the people working within it; and that the principles behind the organization and structure of the Ontario Government have not been examined for some time, the Ontario Government should review its structure and its operating and human resource practices with a view to simplifying and restructuring its operations so as to meet the demonstrated needs of its citizenry in a creative, flexible and responsive manner. *April 11, 1990.*

NOTICES

GOVERNMENT MOTION

30. *Debated April 3, 4, 5, 9, 10 and 11, 1990.*

PRIVATE MEMBERS' MOTIONS

1. *Ms Bryden*—Resolution—That in the opinion of this House, recognizing that huge rent increases year after year are constituting a threat to the competitiveness and survival of retail business in commercial strips serving residential neighbourhoods, the Government of Ontario should introduce legislation as soon as possible to regulate the rents for such business establishments in order to provide those businesses with protection from gouging landlords comparable to the protection given to tenants of residential rental premises under the Residential Rent Regulation Act, 1986. *April 27, 1989.*
2. *Ms Bryden*—Resolution—That, in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a charter of rights for part-time workers should be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment. *April 27, 1989.*
8. *Mr Brandt*—Motion of Censure—That this House has lost confidence in the Minister of the Environment's capacity to exercise his responsibilities as a Minister of the Crown, specifically his duty under the *Environmental Protection Act* to insure the public's safety from toxic chemicals, as well as his duty under the *Freedom of Information and Protection of Privacy Act, 1987* to disclose information regarding a grave environmental, health or safety hazard to the public.

Therefore, this House:

- 1) urges the Minister of the Environment to resign; and
 - 2) calls on the Premier of Ontario to appoint a public enquiry into his government's failure to insure that the public was fully informed with regard to the importation, sale, and use of toxic fuel and the government's mismanagement of this issue resulting in potential health and safety risks to the citizens of Ontario. *May 15, 1989.*
10. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that non-refundable tax credits for political contributions effectively disenfranchise those without taxable incomes from this aspect of the political process; and, acknowledging the unfair treatment the current system affords

lower-income Ontarians—many of whom are women, seniors, disabled, ethnic minorities, farmers and Native Canadians; legislation should be amended to provide for refundable tax credits to eliminate existing discrimination on the basis of income in the financing of Ontario political Parties and candidates. *May 17, 1989.*

23. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing the shortage of acute care beds which is in part due to the use of these beds by chronic care patients and recognizing the added cost to the system as a result of this misuse of acute care beds and recognizing the higher quality of life afforded to patients who can stay in their own homes and the added efficiency in the system as a result of home care; the government of Ontario should establish and maintain a system of community palliative care services which would allow people to be cared for in their own homes or in hospices where the atmosphere allows basic human dignity to be the top priority. *July 25, 1989.*
24. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing that Naturopathists have a body of knowledge on which the practice of naturopathy is based and recognizing the risk associated with an unlicensed person practicing naturopathy; the government of Ontario, recognizing the best interests of the public, should continue to legislate the regulation of Naturopathy. *July 25, 1989.*
28. *Mr Cousens*—Resolution—That in the opinion of this House, recognizing that all sittings of the District and Provincial Courts within the Judicial District of York Region take place in Newmarket; and that considerable time, expense and inconvenience is incurred by residents of the Town of Markham and South York Region since numerous matters are heard in Provincial Offences Court on an ongoing basis; the Attorney General should take immediate steps to have a regular sitting of the Provincial Offences Court and the Provincial Court (Criminal Division) at a location in the Town of Markham. *October 16, 1989.*
35. *Mr Runciman*—Resolution—That, in the opinion of this House, a Canadian-style Triple “E” Federal Senate (elected, regionally equal and effective) should be created and in the event that such a Senate is not implemented by Constitutional Agreement, the Government of Ontario should hold elections, in conjunction with the 1991 Municipal Elections, to choose people to fill present and future Ontario vacancies in the Senate. *November 27, 1989.*
37. *Mr McGuigan*—Resolution—That in the opinion of this House, the Standing Committee on Social Development should be asked to review the current state of regulations relating to required and recommended vaccinations of children in the Province of Ontario and in particular, in conjunction with vaccine-injuries in Ontario, the Committee should consider and recommend:

— an effective means of information about the benefits and risks of immunization and about known contra-indications;

- an effective method of parental instruction about how to deal with reactions, should they occur;
- an effective reporting system of adverse reactions in order to reduce the likelihood that children will receive contra-indicated inoculations;
- a general assurance that recipients of government sponsored immunizations, who experienced a serious adverse reaction, will be provided with compensation without the need to establish liability based on the elusive tort theory. *December 20, 1989.*

39. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing the need to protect and enhance the environment; the Government of Ontario should not offer any grants or loans for private sector projects not utilizing the best available environmental technology, and further, grant and loan criteria—specifically the Premier's Technology fund—should be amended by the Government of Ontario to give priority to projects developing environmental technology. *March 19, 1990.*
40. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that everyone has the right to life, liberty and security of the person, and the right not to be deprived thereof except in accordance with the principles of fundamental justice; the Government of Ontario should petition the Government of Canada to add the fundamental right of enjoyment of property to the Canadian Charter of Rights. *March 19, 1990.*
41. *Mrs Marland*—Resolution—That, in the opinion of this House, recognizing that the Province of Ontario has imposed a special tax of \$5 (plus a 40-cent retail sales tax) on every new tire sold in Ontario, and recognizing that used tires take up much needed space in existing landfill sites, the government should establish used tire depots in various regions of Ontario where used tires would be collected and shredded for recycling, and further that the cost of developing and operating these sites be paid for from the revenues collected from the above-noted taxes. *March 19, 1990.*
42. *Mr Mackenzie*—Resolution—That, in the opinion of this House, recognizing the current Regulations covering hygiene on construction sites are outdated and in need of amendment; that requirements for the provision of toilet and washroom facilities should be fully reflected in the Regulations of the Occupational Health and Safety Act (Sections 89/90); and that the requirements should be both practical and workable, result in the improvement of jobsite working conditions, and hence improve productivity on construction jobsites in the province. 1. The owner/constructor/project manager shall provide toilet and washing facilities on all construction sites in accordance with the following: a) where there are 15 or more workers on a project for a minimum period of one month the facilities shall include one flush (non-chemical) toilet and one urinal and one basin; and b) for each additional 30 workers or part thereof, an additional flush toilet, urinal and wash basin shall be added to facilities. 2. The costs borne by the owner/constructor/project manager in meeting the responsibilities of sections 89 & 90 cannot be transferred to other subcontractors/forces on the project. 3. The owner/constructor/project manager shall have the option of providing

the necessary facilities via access to facilities existing or adjacent to the worksite; via temporary fixed facilities constructed on the site; or via mobile units; conditional on site services being available. 4. On high-rise projects, the necessary facilities shall be made available on every fourth floor. 5. The toilet facilities provided shall be equipped as follows: a) within easy access of work sites, b) built so that the occupant is shielded from view, and protected from weather and falling objects. c) provided with natural or artificial lighting. d) provided with sufficient toilet paper and disinfectant. e) kept in a clean and sanitary condition. f) supplied with toilet seats and covers. g) heated to a minimum of 18 degrees C. h) suitably ventilated. 6. Basins provided shall have as a minimum standard a) hot and cold running water. b) soap or hand cleaner. c) hand towels. 90 1.a). Where WHMIS-class products are present on the jobsite, washing facilities meeting the requirements of the applicable material safety data sheets shall be provided. b). If showers (with the exception of safety showers) are required, they shall have as a minimum standard a) hot and cold running water. b) soap or hand cleaner. c) paper towels or individual hand towels. *March 21, 1990.*

43. *Ms Oddie Munro*—Resolution—That, in the opinion of this House, recognizing that the current practice of the construction industry regarding the provision of sanitary and toilet facilities for construction workers is outdated, the Ministry of Labour should make appropriate amendments to Regulation 691 of R.R.O. 1980 under the *Occupational Health and Safety Act* to upgrade the minimum requirements for sanitary and toilet facilities on construction sites, and in particular should amend the regulations to require employers to provide flush toilets and hand-washing facilities (including soap and running water) at all construction sites and to provide separate facilities for each sex at sites where male and female workers are present. *March 21, 1990.*

45. *Mr Rae (York South)*—Resolution—That, in the opinion of this House, recognizing that unequal opportunity for employment and promotion exists in the province of Ontario for women, members of visible minority groups, native persons and people with disabilities, and recognizing that voluntary efforts to increase the representation of employable persons with such characteristics by employers have profoundly failed in both the private and public sectors of employment in Ontario, and recognizing that the only remedy to such an inequitable situation in Ontario is the introduction of a legislated mandatory employment equity program with enforceable goals and timetables, in both the private and public sectors, and with an emphasis on removing existing barriers to employment and promotion through the provision by government of such important and necessary services as job training, and child care, all parties in Ontario should join together to secure the enactment in the current legislative session of such employment equity legislation for Ontario. *March 22, 1990.*

46. *Mr Wildman*—Resolution—That, in the opinion of this House, recognizing that difficult financial and trade pressures threaten the viability of Ontario agriculture in 1990 and recognizing that the provincial government must make a significant financial commitment to the preservation, expansion and prosperity of family farming in Ontario in the forthcoming spring Bud-

get and recognizing that farmers economic success in the 1990s will largely depend upon their ability to access and manage required capital resources and recognizing that Ontario farmers experiencing financial hardship would benefit from provincial government financial guarantees designed to encourage lending institutions to engage in mediation rather than foreclosures the Ontario government should re-introduce, this year, a program of interest rate assistance (similar to the OFFIRR program) with sufficient funding and of adequate duration to bring about meaningful farm interest rate reduction in this province and, further, that the Ontario government should enact legislation similar to Manitoba's *Family Farm Protection Act* to assist farmers facing foreclosures by enabling them to renegotiate manageable credit terms. *March 28, 1990.*

47. *Mr Brandt*—Resolution—That, in the opinion of this House, recognizing the increased incidence of behavioural problems and violence in schools, and recognizing that children in Ontario currently do not have a right to mental health treatment and, recognizing that there are 10,000 children presently waiting for treatment in Children's Mental Health Centres and, recognizing that there is a lack of legislation in Ontario which specifically governs mental health services for children, the present government should make the provision of children's mental health services a government priority and take immediate action to ensure that all children in Ontario are provided the mental health services which they require and deserve. *April 4, 1990.*
 48. *Mr Kozyra*—Resolution—That, in the opinion of this House, recognizing that there presently exists a program called the Ontario Young Travellers Program which assists students in Northern Ontario with the cost of travelling to Southern Ontario to learn more about their Province and experience and access the resources located in the South, the Government of Ontario should take steps to implement a reciprocal program allowing students in the South to travel to the North so that they also have the opportunity to take advantage of both the human and natural resources available in the North and develop a greater understanding of the diversity of the Province. *April 4, 1990.*
 49. *Mr Carrothers*—Resolution—That, in the opinion of this House, since the problems facing society and government are becoming increasingly more complex; and that the most valuable resource that the Ontario Government or any other government has are the people working within it; and that the principles behind the organization and structure of the Ontario Government have not been examined for some time, the Ontario Government should review its structure and its operating and human resource practices with a view to simplifying and restructuring its operations so as to meet the demonstrated needs of its citizenry in a creative, flexible and responsive manner. *April 11, 1990.*

QUESTIONS

(Questions are to appear on the day after they are tabled and on every subsequent day in the week they are tabled and then subsequently only on each Monday until an Answer (other than an Interim Answer) is tabled. A question tabled on a Thursday will appear on each day of the following week.)

425. *Mrs Marland*—Enquiry of the Ministry—Would the Minister of Labour indicate the total amount of money spent on advertising by the Workers' Compensation Board in its recent publicity campaign dealing with recent changes to the Workers' Compensation Act as a result of Bill 162. *April 10, 1990.*
426. *Mrs Marland*—Enquiry of the Ministry—Would the Minister of Labour indicate the purpose of the most recent advertising campaign of the Workers' Compensation Board dealing with the changes to the Workers' Compensation Act and specifically, the intended audience for the campaign, the advertising media selected and the criteria for this selection of advertising media. *April 10, 1990.*
427. *Mrs Marland*—Enquiry of the Ministry—Would the Minister of Labour indicate the duration of the advertising campaign conducted by the Workers' Compensation Board as a result of the recent passage of Bill 162, specifically, when the campaign began, how many times radio advertisements were run and on what stations, and when the campaign was concluded. *April 10, 1990.*
428. *Mrs Marland*—Enquiry of the Ministry—Would the Minister of Labour indicate in addition to radio advertising, what other communication tools and media were employed to disseminate the information on the passage of Bill 162. *April 10, 1990.*
429. *Mr Runciman*—Enquiry of the Ministry—Would the Minister of Colleges and Universities justify his decision to fund a unilingual French Ph.D. program in psychology in the Northeastern Region of the province and reject the proposal for a bilingual program which would meet the needs of both language groups given the fact that there are no universities in this region offering a bilingual Ph.D. program in psychology and that the bulk of potential candidates in this region speak English. *April 12, 1990.*
430. *Mr Runciman*—Enquiry of the Ministry—Would the Minister of Colleges and Universities explain why the Ministry believes it is not necessary for the government to provide English speaking candidates with equal access to this taxpayer funded unilingual French Ph.D. program in psychology, rather than a bilingual program. *April 12, 1990.*
